Key Highlights

Non-life insurance is typically defined as any insurance not determined to be life insurance. It includes automobile and homeowners' policies and provides payments depending on the loss from a particular financial event.

The Thai non-life insurance market had total gross written premiums of \$8.1 billion in 2022, representing a compound annual growth rate (CAGR) of 4.4% between 2017 and 2022.

The motor segment accounted for the market's largest proportion in 2022, with total gross written premiums of \$4.5 billion, equivalent to 54.8% of the market's overall value.

The dominant share of the motor insurance segment in the country is attributed to mandatory car insurance by law enforced by the country's government.
