## Abstracts

Transportation Services Market @Summary, Competitive Analysis and Forecast, 2017-2026 (Global Almanac)

### SUMMARY

Global Transportation Services industry profile provides top-line qualitative and quantitative summary information including: industry group size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the industry group.

### Key Highlights

The transportation services industry consists of the air, marine, rail, and road freight sectors.

The air freight sector is valued as the revenues generated by airlines from the transportation of cargo and mail by air, either on dedicated freighter aircraft or as belly cargo on passenger aircraft. Scheduled and charter services are both included.

The marine freight sector is defined as consisting of revenues generated from freight transportation by ship of container and dry bulk cargo, by sea and ocean-going vessels.

The rail freight sector is valued as the revenues generated from freight

transportation by rail.

The road freight sector is valued as revenues generated from freight transportation by road.

For all sectors, domestic and international carriage is included. To avoid double-counting in regional and global markets, international freight revenues are assigned to the country of origin.

All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2021 annual average exchange rates.

The global transportation services industry group had total revenues of \$2,755.1 billion in 2021, representing a compound annual growth rate (CAGR) of 4.7% between 2016 and 2021.

The road segment was the industry group's most lucrative in 2021, with total revenues of \$1,724.3 billion, equivalent to 62.6% of the industry group's overall value.

The rapid expansion of e-commerce has been the main growth driver for transportation services across all segments, particularly in domestic terms.
