### KEY HIGHLIGHTS

The government spending sector is the total amount of public sector expenditure at any sort of level, including central government, local government etc. It is split into the following segments: defense, education, social protection, healthcare, and other.

The Turkish government spending sector had total expenditure of \$226.9 billion in 2021, representing a compound annual growth rate (CAGR) of 15.7% between 2016 and 2021.

The social protection segment was the sector's most lucrative in 2021, with total expenditure of \$67.0 billion, equivalent to 29.5% of the sector's overall value.

The Turkish government has been steadily increasing its defense expenditure in recent years. This is likely to continue to be a key driver of growth in the sector

going forwards.
