Summary

Internet Access in the United Kingdom industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The Internet access market includes all Internet service revenues collected to provide narrowband and broadband Internet access through consumer and business channels. All revenues calculated are retail revenues that are exclusive of taxes. Only fixed communication is included, and mobile phone connections are not considered.

The UK internet access market had total revenues of \$14.8 billion in 2022, representing a compound annual growth rate (CAGR) of 0.6% between 2017 and 2022.

Market consumption volume increased with a CAGR of 0.7% between 2017 and 2022, to reach a total of 0.06 billion Internet Users in 2022.

According to a survey by Ofcom, there are still about 1.5 million homes without

internet connectivity in the UK. The Russian-Ukrainian War caused internet connections to be disrupted. Communications services were significantly impacted by the storms.
