United Kingdom (UK) IT Services - Market Summary, Competitive Analysis and Forecast, 2017-2026

SUMMARY

IT Services in the United Kingdom industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The IT services industry is valued as the combination of the business process outsourcing (BPO) services market, the application services market and the infrastructure services market. Values include revenues generated from (a) signed deals that remain under contract and (b) new contracts signed within that particular calendar year.

The UK IT services industry had total revenues of \$68.5bn in 2021, representing a compound annual growth rate (CAGR) of 10.5% between 2016 and 2021.

The infrastructure services segment was the industry's most lucrative in 2021, with total revenues of \$40.7bn, equivalent to 59.5% of the industry's overall value.

Customers now desire online services to complement and facilitate their consumption. This entails online marketplaces alongside easily navigated and intuitive websites and online catalogues. This has resulted in consistent increases in demand for IT services.
