Summary

Real Estate in the United Kingdom industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Real estate refers to physical property and consists of land and buildings. The market scope includes renting and leasing various types of real estate properties.

The UK real estate industry recorded revenues of \$291 billion in 2023, representing a compound annual growth rate (CAGR) of 3% between 2018 and 2023.

Industry consumption volume increased with a CAGR of 0.7% between 2018 and 2023, to reach a total of 16.4 million units in 2023.

All of the UK's main cities saw increases in rental and buying prices in the real estate sector. However, rental property demand is greater than supply.
