Abstracts

The global antifog films & sheets market will rise from USD 3.7 billion in 2023 to USD 4.8 billion by 2028 at a CAGR of 5.1% from 2023 to 2028. In the food packaging sector, the anti-Fog Films & sheets market experiences growth due to consumer demand for clear and visually appealing packaging. These films prevent condensation, preserving the freshness and quality of packaged products, thereby extending shelf life. In the healthcare sector, the market is driven by the need for clear visibility on medical devices and personal protective equipment, enhancing safety during procedures.

“The polyester films segment, by material type, is accounted for the largest share.”

Polyester films offer versatility and find applications in various industries such as packaging, electronics, automotive, and textiles. Their adaptability to diverse uses contributes to a broad market appeal. Polyester films provide robustness and have good barrier properties against gases, odors, and moisture. These characteristics make them suitable for applications requiring protective and durable packaging. Moreover, polyester films are extensively used in electronic applications, such as displays and touchscreens, where their optical clarity, flexibility, and durability are crucial. The growth of the electronics industry further propels the demand for polyester films.

“Food packaging films, in application segment, is accounted for the largest share.”

Antifog films contribute to meeting hygiene and safety standards in the food industry. They prevent fogging, ensuring that important information on packaging, such as nutritional labels and expiry dates, remains visible and compliant with regulations. The growing trend toward convenience foods and on-the-go consumption has led to an increased demand for clear and attractive packaging. Antifog films play a crucial role in maintaining the visual appeal of these packaged convenience foods.

“Asia Pacific antifog films & sheets market is projected to grow at the highest CAGR from 2023 to 2028.”

The Asia Pacific region, particularly countries like China, India, and Southeast Asian nations, has been experiencing rapid industrialization and economic growth. This growth fuels increased demand for packaging solutions, including antifog films, across various industries. The region is witnessing a surge in the food and beverage industry due to changing lifestyles, urbanization, and a rising middle-class population. Antifog films play a crucial role in food packaging, addressing the demand for clear and attractive packaging in the growing consumer market. Furthermore, agriculture is a significant contributor to the economies of many Asia Pacific countries. Antifog films find applications in agriculture for greenhouse films and agricultural covers, helping improve visibility and crop protection. The expanding agriculture sector contributes to the demand for these films.

Profile break-up of primary participants for the report:

By Company Type: Tier 1 – 16%, Tier 2 – 36%, and Tier 3 – 48%

By Designation: C-level Executives – 16%, Directors – 24%, and Others – 60%

By Region: North America – 24%, Europe – 36%, Asia Pacific – 20%, Middle East & Africa – 12%, and South America – 8%

The antifog films & sheets market report is dominated by players such as Celanese Corporation (US), 3M (US), SABIC (Saudi Arabia), FSI Coating Technologies (US), Kafrit Industries Ltd. (Israel), DuPont (US), Amcor (Switzerland), Toray (Japan), Weetect Inc. (China), Sumitomo Bakelite Co., Ltd. (Japan), Cosmo Films (India), Jindal Poly Films Limited (India), Berry Global Inc. (US).

Research Coverage:

The report defines, segments, and projects the antifog films & sheets market based on type, nature, and region. It provides detailed information regarding the major factors influencing the market's growth, such as drivers, restraints, opportunities, and industry-specific challenges. It strategically profiles key antifog films & sheets providers. It comprehensively analyses their market shares and core competencies and tracks. It analyzes competitive developments, such as expansions, agreements, contracts, partnerships, acquisitions, collaborations, and divestments, undertaken by them in the market.

Reasons to Buy the Report:

The report is expected to help the market leaders/new entrants by providing them with the closest approximations of revenue numbers of the antifog films & sheets market and its segments. This report is also expected to help stakeholders understand the market's competitive landscape better, gain insights to improve the position of their businesses and make suitable go-to-market strategies. It also enables stakeholders to understand the market's pulse and provides information on key market drivers, restraints, challenges, and opportunities.

The report provides insights on the following pointers:

Analysis of critical drivers (growth in food packaging industry), restraints (competition for alternative solutions), opportunities (opportunity in the eyewear industry), and challenges (antifog film's interplay with other coatings) influencing the growth of the antifog films & sheets.

Product Development/Innovation: Detailed insights on upcoming technologies, research &

development activities in the antifog films & sheets market.

Market Development: Comprehensive information about lucrative markets – the report analyses

the antifog films & sheets market across varied regions.

Market Diversification: Exhaustive information about new products & services, untapped

geographies, recent developments, and investments in the antifog films & sheets market.

Competitive Assessment: In-depth assessment of market shares, growth strategies, and service

offerings of leading players like Celanese Corporation (US), 3M (US), SABIC (Saudi Arabia), FSI Coating Technologies (US), Kafrit Industries Ltd. (Israel), DuPont (US), Amcor (Switzerland), Toray (Japan), Weetect Inc. (China), Sumitomo Bakelite Co., Ltd. (Japan), Cosmo Films (India), Jindal Poly Films Limited (India), Berry Global Inc. (US) and among others in the antifog films & sheets market.
