“Emerging trend of mobility and Bring-Your-Own-Device (BYOD) is driving the cloud collaboration market”

The cloud collaboration market size is estimated to grow from USD 23.39 billion in 2016 to USD 42.57 billion by 2021, at a Compound Annual Growth Rate (CAGR) of 12.7% from 2016 to 2021. The cloud collaboration market is driven by factors such as emerging trend of mobility & BYOD and increased saving, safety, and productivity.

“The enterprise social collaboration solution is expected to gain the maximum traction during the forecast period”

Enterprise social collaboration solution is expected to grow at the highest rate during the forecast period as it aims at connecting employees across teams and enterprises. It enables teamwork and exchange of knowledge and ideas to enhance business results. The increasing usage of smartphones and digital devices has enabled the users to connect with anyone in real-time from any remote area, which results in improved decision making.

“Latin America is expected to grow at the highest rate during the forecast period”

North America is expected to dominate the cloud collaboration market by having the largest market share due to presence of a large number of cloud collaboration vendors.

Latin America offers potential growth opportunities due to the explosion of new technologies combined with increasing business needs and increase in the number of organizations adopting cloud collaboration solutions and services.
