Abstracts

In terms of value, the coated fabrics market is estimated to grow from USD 23.7 billion in 2022 to USD 29.8 billion by 2028, at a CAGR of 3.9%. The rising strict regulations and safety concerns for workers is also driving the demand for coated fabrics. The key manufacturers of the coated fabrics are integrating technologies to improve the quality of products.

“PU-coated fabrics is expected to be the fastest-growing Product type of the polymer-coated fabrics market, in terms of value and volume, during the forecast period.”

The PU-coated fabrics segment is estimated to consider the fastest growth in terms of value and volume during the forecast period. Due to its high prices, it is the largest product type in polymer coated fabrics type in terms of value. It offers high tensile strength with good abrasion resistance. It is highly flexible at low temperature which is commonly used for its leather-like properties such as low weight, high tensile strength in transportation, industrial, furniture, protective clothing, and other applications.

“Asia Pacific is largest and projected to be the fastest growing region for coated fabrics market, in terms of value, during the forecast period

Due to increasing population in emerging countries, there is high demand of industrialization and expanding of infrastructures and modernization. This makes Asia Pacific to be the fastest growing region for coated fabrics market during the forecast

period. In addition to this, the strict government regulations over safety measures in nations like India, China and Japan will promote demand for coated fabrics market.

By Company Type: Tier 1 - 31%, Tier 2 - 46%, and Tier 3 - 23%

By Designation: C-Level - 46%, Director Level - 27%, and Others - 27%

By Region: Asia Pacific - 24%, North America - 29%, Europe - 14%, Middle East & Africa - 14%, South America – 9%

The key players profiled in the report include Continental AG (Germany), Trelleborg AB (Sweden), Serge Ferrari Group (France), Saint-Gobain S.A. (France), Freudenberg Group (Germany).

Research Coverage

This report segments the market for coated fabrics based on product type, application, and region and provides estimations of volume (kiloton) and value (USD million) for the overall market size across various regions. A detailed analysis of key industry players has been conducted to provide insights into their business overviews, services, key strategies, associated with the market for coated fabrics.

Reasons to Buy this Report

This research report is focused on various levels of analysis — industry analysis (industry trends), market share analysis of top players, and company profiles, which together provide an overall view on the competitive landscape; emerging and high-growth segments of the coated fabrics market; high-growth regions; and market drivers, restraints, and opportunities.

The report provides insights on the following pointers:

Analysis of key drivers (Increased need for environment friendly materials, Increasing safety concerns in automobiles and other industries, Growing protective clothing segment due to strict regulatory standards for workers safety), restraints (Impact on environment, Availability of alternative product), opportunities (Development of technologies, Increasing urbanization and

industrialization in developing countries, Development innovative product for protective clothing), and challenges (Inability of recycling and disposal of debris, price variations of raw materials, less safety compliances) influencing the growth of the coated fabrics market

Product Development/Innovation: Detailed insights on upcoming technologies, research & development activities, and new product & service launches in the coated fabrics market

Market Penetration: Comprehensive information on coated fabrics offered by top players in the global market

Product Development/Innovation: Detailed insights on upcoming technologies, research & development activities, and new product & service launches in the coated fabrics market

Market Development: Comprehensive information about lucrative emerging markets — the report analyzes the markets for coated fabrics across regions

Market Diversification: Exhaustive information about new products, untapped regions, and recent developments in the global coated fabrics market

Competitive Assessment: In-depth assessment of market shares, strategies, products, and manufacturing capabilities of leading players in the coated fabrics market

About

The report “Coated Fabrics Market by Product And Application - Global Trends & Forecasts to 2020”, defines and segments the coated fabrics market with an analysis and forecast for product and applications by volume as well as value.

This report estimates the market for 2015, and projects market size till 2020. It also provides a detailed qualitative and quantitative analysis of the market. Various secondary sources, such as encyclopedia, directories, and databases are used to identify and collect information that is useful for this extensive commercial study.

Leading Companies in Coated Fabrics Markets are listed below:

OMNOVA Solutions Inc. (U.S.)

Trelleborg AB (Sweden)

Saint-Gobain SA (France)

Takata Corporation (Japan)

Continental AG (Germany)

Sioen Industries NV (Belgium) Etc...

This research report categorizes the global market on the basis of product, application, and region along with forecasting volume, value, and analyzing trends in each of the sub-markets.

On the basis of product: On the basis of product, the market is segmented into polymer coated fabrics, rubber coated fabrics, and fabric backed wall coverings. Polymer coated fabrics is further segmented into three key types- vinyl coated fabrics, polyurethane coated fabrics, and polyethylene coated fabrics. Each product is further described in detail in the report with volume and value forecast.

On the basis of application: On the basis of application, the coated fabrics market is segmented into transportation, protective clothing, industrial, furniture & seating, and roofing, awnings & canopies among others. Each application is further described in detail in the report with volume and value forecast.

On the basis of region: On the basis of geography, the market is segmented into regions such as North America, Asia-Pacific, Europe, and RoW, and further for key countries in each region that include:

North America

Europe
