## **Abstracts**

The global diagnostic contract manufacturing market is projected to reach USD 44.9 Billion by 2028 from USD 26.0 Billion in 2023, at a CAGR of 11.5% during the forecast period. The growth of this market is majorly driven by the growth in the adoption of robotics and automation in manufacturing processes. However, the increasing adoption of refurbished diagnostic imaging systems challenges the growth of the diagnostic contract manufacturing market.

“The diagnostic imaging devices segment accounted for the highest growth rate in the diagnostic contract manufacturing market, by device, during the forecast period.”

Based on the type segment, the diagnostic contract manufacturing market is segmented into In vitro diagnostic devices, diagnostic imaging devices, and other devices. Diagnostic imaging devices include CT, X-ray, MRI, Ultrasound, and other imaging devices. Due to rapid economic growth, the adoption of these devices is expected to increase in developing countries in the coming years.

“Orthopedics application segment accounted for the highest CAGR during the forecast period among diagnostic imaging devices application.”

Based on application, the diagnostic imaging devices market is segmented into

cardiology, neurology, orthopedics, oncology, and others. In 2022, cardiology dominated the market, and orthopedics observed the highest growth rate. Factors supporting the growth of orthopedics applications are the rising geriatric population and the growing prevalence of orthopedic diseases and disorders.

“The Asia Pacific segment accounted for the highest growth rate in the diagnostic contract manufacturing systems market, by region, during the forecast period.”

Based on the region, the global diagnostic contract manufacturing market is categorized into North America, Europe, Asia Pacific, and Rest of the World. Asia Pacific is expected to witness a high growth rate during the forecast period. Low labor costs and rapidly changing healthcare infrastructure hold massive potential for the Asia Pacific diagnostic contract manufacturing market.
