Abstracts

Digital security control (DSC) products and solutions secure an individual's digital identity and protect it from fraud, theft, and other unethical means. The report is segregated on the basis of hardware, software, services, applications, and geographic regions. In the near future, healthcare, government, finance and banking applications are expected to drive the DSC market. This is because of the huge demand for DSC products and solutions, which are used in these applications. DSC services are based on the type and potential of authentication services such as two-factor, three-factor, and four-factor services.

The report majorly profiles companies active in this field. This report provides the competitive landscape of key players that includes their main growth strategies. This report focuses on giving a detailed view of the complete DSC market with regards to different applications as well as geographic regions. The market for the DSC application is rapidly penetrating in healthcare, finance and government sectors. The DSC market for applications is estimated to reach up to USD 14.6 billion by 2020 at a CAGR of 13.01% between 2015 and 2020.

Major players in this market are Gemalto N.V. (Netherlands), FireEye, Inc. (U.S.), Oberthur Technologies (Japan), Safenet, Inc. (U.S.), and Vasco Data Security International, Inc. (U.S.). Several recent expansions and acquisitions, new product launches, and new contracts signed are also discussed in the report. Following is the detailed explanation of each segment:
