## Abstracts

The Doors Companies Quadrant is a comprehensive industry analysis that provides valuable insights into the global market for Doors. This quadrant offers a detailed evaluation of key market players, technological advancements, product innovations, and emerging trends shaping the industry. MarketsandMarkets 360 Quadrants evaluated over 100 companies, of which the Top 12 Doors Companies were categorized and recognized as quadrant leaders.

Doors are fundamental architectural elements that fulfill both practical and visual roles in residential and non-residential structures. With progress in material science and building technology, contemporary doors have transformed into advanced systems that meet a wide range of requirements, including security, energy conservation, acoustic insulation, fire safety, and design versatility. Today's doors are made from various materials such as wood, steel, plastic, glass, and composites—each selected based on specific performance needs and intended applications. Their durability, ease of installation, and versatility make them indispensable in a variety of settings, including homes, offices, hospitals, educational institutions, retail environments, and industrial buildings.

A door is a movable barrier designed to allow or restrict access to a defined space, facilitating entry and exit while also permitting light, airflow, and sound to pass as needed. It serves to shield and separate interior areas from external influences and is typically made from materials like wood, glass, metal, plastic, or composite substances. Doors come in a wide array of styles and mechanisms, such as swinging, sliding, folding, and overhead models, accommodating the functional and design needs of both residential and commercial spaces.

The 360 Quadrant maps the Doors companies based on criteria such as revenue, geographic presence, growth strategies, investments, and sales strategies for the market presence of the Doors quadrant. The top criteria for product footprint evaluation

included By MATERIAL (Wood, Glass, Metal, Plastic, Composite), By MECHANISM (Swinging Doors, Sliding Doors, Folding Doors, Overhead Doors, Doors of Other Mechanisms), By PRODUCT TYPE (Interior Doors, Exterior Doors), By MODE OF APPLICATION (New Construction, Aftermarket), and By APPLICATION (Residential, Non-Residential).

Key players in the Doors market include major global corporations and specialized innovators such as Cornerstone Building Brands, Inc., ASSA ABLOY, LIXIL Corporation, JELD-WEN, Inc., Allegion plc, dormakaba Group, YKK AP, Owens Corning, Andersen Corporation, MITER Brands, Pella Corporation, and Simpson Door Company. These companies are actively investing in research and development, forming strategic partnerships, and engaging in collaborative initiatives to drive innovation, expand their global footprint, and maintain a competitive edge in this rapidly evolving market.

### Top 3 Companies

#### ASSA ABLOY

ASSA ABLOY, headquartered in Sweden, dominates the market with its extensive product portfolio covering mechanical locks, electronic locks, and entrance automation solutions. Their Company Market Share continues to grow through strategic acquisitions and developments. Globally positioned, ASSA ABLOY operates in over 70 countries, emphasizing both residential and non-residential segments. The Company Product Portfolio includes innovative solutions like biometric technology for secure access. Notable expansion includes acquiring Kingspan Door Components to bolster the company's Entrance Systems Division, improving their Company Ranking and geographical footprint.

#### LIXIL Corporation

LIXIL Corporation, a major Japanese supplier, focuses on integrating advanced technology into its door products, maintaining a competitive edge in the Company Market Share within global markets. LIXIL's strategic partnership with Schuco International KG highlights its commitment to sustainability and reducing carbon footprints, crucial for maintaining their Company Positioning in eco-conscious segments. Innovations such as the Jiesta 2 face recognition technology underlie LIXIL's focus on cutting-edge security solutions, enhancing their Company Product Portfolio.

#### JELD-WEN, Inc.

Based in the US, JELD-WEN is a key player offering a diverse range of door solutions.

Known for its manufacturing excellence, the company secures significant portions of the Company Market Share. With operations spanning several countries, JELD-WEN adapts to regional demands while maintaining flexible production capabilities and a robust Company Ranking. Expansion into smart home solutions and sustainable products ensures a comprehensive Company Product Portfolio that appeals to both residential and commercial sectors.
