Abstracts

The global Electrophysiology market is projected to reach USD 15.1 billion by 2028 from USD 8.2 billion in 2023, growing at a CAGR of 15.2% during the forecast period. The projected increase in market growth for the Electrophysiology market is seen due to technological advancements and Increased research funding. The increasing frequency of implantable cardiac devices such as pacemakers, implantable cardioverter-defibrillators (ICDs), and cardiac resynchronization treatment (CRT) devices contributes to the electrophysiology market's growth.

“The electrophysiology laboratory devices segment to register highest growth over the forecast period of 2023-2028.”

Based on the product, the Electrophysiology market is segmented into electrophysiology laboratory devices, electrophysiology ablation catheters, electrophysiology diagnostic catheters, EP access products, and other devices. Electrophysiology laboratory devices is to witness the highest growth during the forecast period. Electrophysiology equipment used in clinical settings, such as cardiac electrophysiology investigations and ablation procedures, has been expected to grow. The need for better clinical electrophysiological tools is fueled by ageing populations and advancements in treatment modalities.

“Asia Pacific to register highest CAGR in the market during the forecast period.”

For the forecasting period 2023-2028, the APAC region is expected to register a significant growth rate in the market during the forecast period. Asia Pacific comprises India, China, Japan, Australia, South Korea, and RoAPAC. The Asia-Pacific (APAC) region has witnessed a significant increase in the market growth rate for the electrophysiology market. There are several drivers that contributed to this growth:

The cost of healthcare has been rising in many APAC nations, including China, India, Japan, and South Korea. Advanced medical technology, like electrophysiological devices, are being adopted at a higher rate as the healthcare infrastructure gets better. APAC is seeing an increase in cardiovascular disorders due to ageing populations, changing lifestyles, and urbanisation. The diagnosis and treatment of cardiac disorders frequently depend on electrophysiology procedures, which raises the need for associated devices.

A breakdown of the primary participants referred to for this report is provided below:

By Company Type: Tier 1–40%, Tier 2–30%, and Tier 3– 30%

By Designation: C-level–27%, Director-level–18%, and Others–55%

By Region: North America–50%, Europe–20%, Asia Pacific–15%, Latin America–10%, and the Middle East & Africa–5%

Research Coverage

The report studies the Electrophysiology market based on Product, Indication, End User and Region.

The report analyzes factors (such as drivers, restraints, opportunities, and challenges) affecting the market growth.

The report evaluates the opportunities and challenges in the market for stakeholders and provides details of the competitive landscape for market leaders.

The report studies micro markets concerning their growth trends, prospects, and contributions to the global electrophysiology market.

The report forecasts the revenue of market segments with respect to five major regions.

Key Benefits of Buying the Report:

The report will help the market leaders/new entrants/smaller firms in this market with investment evaluation viability within the Electrophysiology market through a thorough analysis of comprehensive data, thereby facilitating robust risk assessment and enabling well-informed investment determinations. Benefit from meticulous market segmentation encompassing application, end-user, and regional dimensions, affording tailored insights for precise segment targeting. The report also provides an all-encompassing evaluation of encapsulating pivotal trends, growth catalysts, challenges, and prospects, thereby empowering strategic decision-making with astute discernment.

The report provides insights on the following pointers:

Analysis of key drivers (Technology advancements) (Growing investments,funds), opportunities (Expansion of key players in emerging countries, Rising healthcare expenditure across developing countries), and challenges (Availability of alternative technology) influencing the growth of the Electrophysiology market

Product Development/Innovation: Detailed insights on upcoming technologies, research & development activities, and new product & service launches in the electrophysiology market.

Market Development: Comprehensive information about lucrative markets – the report analyses the Electrophysiology market across varied regions.

Market Diversification: Exhaustive information about new products, untapped geographies, recent developments, and investments in the electrophysiology market.

Competitive Assessment: In-depth assessment of market shares, growth strategies, and service offerings of leading players like Johnson & Johnson (US), Abbott Laboratories (US), Medtronic (Ireland), Koninklijke Philips N.V. (Netherlands), GE Healthcare (US), Boston Scientific (US) among others.

5 MARKET OVERVIEW

5.1 INTRODUCTION

5.2 MARKET DYNAMICS

FIGURE 16 ELECTROPHYSIOLOGY MARKET: DRIVERS, RESTRAINTS, OPPORTUNITIES, AND CHALLENGES

5.2.1 DRIVERS

5.2.1.1 Technological advancements

5.2.1.1.1 Rising use of noninvasive cardiac mapping

5.2.1.1.2 Increased use of improved intracardiac ablation systems

5.2.1.1.3 Increased use of MRI-guided ablation procedures

5.2.1.1.4 Growing level of ultrasound guidance in EP labs

5.2.1.2 Rising number of new entrants

5.2.1.3 Growing investments, funds, and grants for cardiac surgeries and electrophysiology

5.2.1.4 Increasing disease incidence and procedural volume

5.2.2 RESTRAINTS

5.2.2.1 High product cost and inadequate reimbursement

5.2.2.2 Unfavorable healthcare reforms in US

5.2.2.3 Cost-intensive data requirements for product launches and availability of alternative technologies

5.2.3 OPPORTUNITIES

5.2.3.1 Emerging markets

5.2.4 CHALLENGES

5.2.4.1 Increasing device reuse and reprocessing

5.2.4.2 Lack of skilled and experienced personnel

5.3 PORTER'S FIVE FORCES ANALYSIS

I would like to order

Product name: Electrophysiology Market by Product (Laboratory Devices, Ablation Catheters, Diagnostic Catheters), Indication (Atrial Fibrillation, Atrial Flutter, AVNRT, WPW), End-user (Hospitals & Cardiac Centers), and Region - Global Forecast to 2028

Product link: <https://marketpublishers.com/r/E469C63D89EEN.html>

Price: US\$ 4,950.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
