Abstracts

Global ophthalmology devices and drugs market is witnessing a significant growth due to the increasing incidence and prevalence of eye related disorders such as presbyopia, macular degeneration, and diabetic retinopathy among the aging population. With the introduction of ophthalmic devices equipped with sophisticated technologies, people are increasingly opting for ophthalmic surgeries to correct their eye related disorders.

This report on ophthalmology devices covers major eye problems such as cataract, refractive error and other retinal disorders. The cataract devices market includes intraocular lenses and phacoemulsification devices, the refractive error devices include excimer lasers and contact lenses, and devices for other retinal disorders are vitrectomy systems. The report analyzes future potential for all these markets and also technology trends seen in these markets in the recent past.

The report forecasts, identifies and analyses market trends, drivers, restraints and opportunities, competitive landscape and strategic developments.

Market estimates and forecasts

The report categorizes global ophthalmology devices market based on major eye disorders such as cataract, refractive error and other retinal disorders. In addition to market sizes and forecasts, the report identifies and analyzes trends and opportunities for each submarket; providing fifteen market tables for submarkets in the U.S., Europe, Asia Pacific, and Rest of the World (ROW), with the latter comprising of Russia, CIS, Australia, New Zealand, Canada, Mexico, and Africa.

What makes our reports unique?

We provide 10% customization. Normally it is seen that clients do not find specific market intelligence that they are looking for. Our customization will ensure that you necessarily get the market intelligence you are looking for and we get a loyal customer.

We conduct detailed market positioning, product positioning and competitive positioning. Entry strategies, gaps and opportunities are identified for all the stakeholders.

Comprehensive market analysis for the following sectors: cataract devices, refractive error devices and other retinal disorders.

Key questions answered

Which are the high-growth segments/cash cows and how is the market segmented in terms of ophthalmology devices market?

What are market estimates and forecasts; which markets are doing well and which are not?

Where are the gaps and opportunities; what is driving the market?

Which are the key playing fields? Which are the winning edge imperatives?

How is the competitive outlook; who are the main players in each of the segments; what are the key selling products; what are their strategic directives, operational strengths and product pipelines? Who is doing what?

Powerful Research and analysis

MarketsandMarkets (M&M) is a global market research and consulting company based in the U.S. We publish strategically analyzed market research reports and serve as a business intelligence partner to Fortune 500 companies across the world.

MarketsandMarkets also provides multi-client reports, company profiles, databases, and custom research services.

M&M covers thirteen industry verticals, including advanced materials, automotive and transportation, banking and financial services, biotechnology, chemicals, consumer goods energy and power, food and beverages, industrial automation, medical devices, pharmaceuticals, semiconductor and electronics, and telecommunications and IT.
