## Abstracts

The hard coatings market size is projected to reach USD 1.7 billion by 2028 at a CAGR of 7.0% from USD 1.2 billion in 2023. Asia Pacific is estimated to account for the largest share in terms of value of the hard coatings market in 2022. The region's burgeoning industrialization and infrastructure development drive demand for hard coatings across sectors such as automotive, electronics, and manufacturing. The presence of major manufacturing hubs and increasing investments in research and development bolster innovation and adoption of advanced hard coating technologies. Supportive government policies promoting industrial growth and technological advancements further contribute to the region's leadership in the hard coatings market.

“Europe is likely to account for the second largest share of hard coatings market in terms of value.”

The region boasts a highly developed automotive and manufacturing sector, where hard coatings are extensively utilized to enhance the durability and performance of critical components such as engine parts, gears, and cutting tools. Europe's stringent environmental regulations drive the demand for eco-friendly coating solutions, prompting the adoption of advanced hard coatings that minimize environmental impact. The region's focus on innovation and technological advancement fosters the development of cutting-edge coating technologies, further bolstering the market. Additionally, Europe's robust aerospace industry relies on hard coatings for aircraft components to ensure safety, reliability, and efficiency. Moreover, the region's

commitment to research and development, coupled with a skilled workforce, facilitates continuous advancements in hard coating materials and application techniques, solidifying Europe's position as a key player in the global hard coatings market.

“Multi component is projected to be the fastest growing material type segment of hard coatings market.”

Multi-component coating is projected to be the fastest-growing market due to its ability to offer enhanced performance and versatility compared to traditional single-component coatings. These coatings incorporate multiple materials, such as carbides, nitrides, and oxides, in varying combinations and layers to achieve specific properties tailored to different applications. This flexibility allows for customization to meet the diverse requirements of industries such as automotive, aerospace, and manufacturing, where superior wear resistance, corrosion protection, and thermal stability are essential. Additionally, multi-component coatings enable the development of advanced functional coatings with improved adhesion, hardness, and durability, expanding their utility in demanding environments. Furthermore, advancements in coating technologies, such as plasma-enhanced chemical vapor deposition (PECVD) and physical vapor deposition (PVD), facilitate the precise deposition of multi-component coatings, driving their adoption across industries and fueling their rapid growth in the market.

“China, by country is forecasted to be the largest market of hard coatings during the forecast period.”

China is estimated to be the largest market for hard coatings due to several compelling reasons. The country's rapid industrialization and manufacturing growth across various sectors, including automotive, electronics, and machinery, drive significant demand for durable and wear-resistant coatings to enhance the performance and longevity of critical components. China's robust infrastructure development and construction activities further bolster the demand for hard coatings in applications such as building materials, bridges, and infrastructure machinery, where protection against corrosion and abrasion is essential. The Chinese government's initiatives to promote domestic manufacturing, innovation, and technological advancement support the growth of the hard coatings market. Furthermore, the country's large consumer base and increasing disposable income levels fuel the demand for high-quality products with longer lifespans, driving the adoption of hard coatings in consumer electronics and appliances.

Breakdown of Primary Interviews:

*Hard Coatings Market by Material Type (Nitrides, Oxides, Carbides, Carbon, Borides, Multi-Component), Depositi...*

By Company Type: Tier 1 – 33%, Tier 2 – 40%, and Tier 3 – 27%

By Designation: C Level – 33%, D Level – 27%, and Others – 40%

By Region: North America – 27%, Europe – 20%, Asia Pacific – 33%, Middle East & Africa – 7% and South America – 13%

The key companies profiled in this report are OC Oerlikon Management AG (Switzerland), Momentive (US), Cemecon AG (US), Carl Zeiss Meditec AG (Germany), and SDC Technologies, Inc. (US).

#### Research Coverage:

The hard coatings market has been segmented based on Material Type (Nitrides, Oxides, Carbides, Carbon, Borides, Multi-Component), Deposition Techniques (PVD, CVD), Application, End-use industry and by Region (Asia Pacific, North America, Europe, Middle East & Africa, and South America).

This report provides insights on the following pointers:

Analysis of key drivers (The growing need for PVD in the medical devices and equipment sector is driving the surge in sales for hard coatings, Ongoing expansion in the food processing industry is fueling the demand for hard coating, Efficiency of hard coatings) restraints (Huge total cost of ownership), opportunities (BRICS countries offer untapped opportunities for geographical expansion for hard coating manufacturers, New technological developments), and challenges (Developing cheaper substitutes) influencing the growth of the hard coatings market.

Product Development/Innovation: Detailed insight of upcoming technologies, research & development activities, and new product launches in the hard coatings market.

Market Development: Comprehensive information about markets – the report analyses the hard coatings market across varied regions.

Market Diversification: Exclusive information about the new products & services untapped geographies, recent developments, and investments in hard coatings

market.

Competitive Assessment: In-depth assessment of market shares, growth strategies and service offerings of leading players like OC Oerlikon Management AG (Switzerland), Momentive (US), Cemecon AG (US), Carl Zeiss Meditec AG (Germany), and SDC Technologies, Inc. (US) among other in the hard coatings market.

### 1 INTRODUCTION

#### 1.1 STUDY OBJECTIVES

#### 1.2 MARKET DEFINITION

##### 1.2.1 INCLUSIONS AND EXCLUSIONS

##### 1.2.2 DEFINITIONS AND INCLUSIONS, BY DEPOSITION TECHNIQUE

##### 1.2.3 DEFINITIONS AND INCLUSIONS, BY APPLICATION

##### 1.2.4 DEFINITIONS AND INCLUSIONS, BY MATERIAL TYPE

##### 1.2.5 DEFINITIONS AND INCLUSIONS, BY END-USE INDUSTRY

#### 1.3 MARKET SEGMENTATION

##### FIGURE 1 HARD COATINGS MARKET SEGMENTATION

##### 1.3.1 REGIONS COVERED

##### 1.3.2 YEARS CONSIDERED

#### 1.4 CURRENCY

#### 1.5 UNITS CONSIDERED

#### 1.6 STAKEHOLDERS

#### 1.7 SUMMARY OF CHANGES

##### 1.7.1 IMPACT OF RECESSION

### 2 RESEARCH METHODOLOGY

#### 2.1 RESEARCH DATA

##### FIGURE 2 HARD COATINGS MARKET: RESEARCH DESIGN

##### 2.1.1 SECONDARY DATA

###### 2.1.1.1 Key data from secondary sources

##### 2.1.2 PRIMARY DATA

###### 2.1.2.1 Key data from primary sources

##### 2.1.3 BREAKDOWN OF INTERVIEWS WITH EXPERTS

###### 2.1.3.1 Primary data sources

###### 2.1.3.2 Key industry insights

#### 2.2 MARKET SIZE ESTIMATION

##### 2.2.1 BOTTOM-UP APPROACH

##### 2.2.2 TOP-DOWN APPROACH

##### FIGURE 3 HARD COATINGS MARKET SIZE ESTIMATION, BY REGION
