Abstracts

The report covers the important global methylene chloride markets along with the drivers, restrains, opportunities and challenges related to the methylene chloride market. It divides the market on the basis of application and region. The market data for these types is given with respect to volume (kiloton) and value (million). The methylene chloride market size in terms of value was worth USD 708.0 million in 2015 and is projected to register a CAGR of about 4.75% between 2015 and 2020

The total market for methylene chloride has been analyzed based on the Porter's five forces model. This gives an idea about the current proceedings in the industry at commercial level. The study also provides the value-chain analysis with respect to methylene chloride raw materials, manufacturers, and end users. The value chain describes the key contributors to the raw materials market at different stages from product development to end use. It represents the key players which are contributing to the overall methylene chloride industry.

The impact of different market factors such as drivers, restraints, and opportunities is also illustrated in the report. This gives an idea about the key drivers such as high growth and demand in emerging economies such as China, Japan, and India. It is backed by large population demand, increased manufacturing growth, and newer industrial applications. Stringent government regulations across the North American and European regions will have the vital influence on the overall global methylene chloride market. Also, the economic slowdown in the European region and the U.S. affected the

economy of other developed countries, which are of key importance for commercial success of new materials and their end-use market.

The global methylene chloride market is also classified based on different applications for different region. The important applications of methylene chloride are discussed and analyzed in the report.

The key companies in this market are the Dow Chemical (U.S.), AkzoNobel N.V (Netherlands), Ineos (Switzerland), Solvay S. A. (Belgium), Kem One (France), Shin-Etsu (Japan), Gujarat Alkalies & Chemicals Ltd. (India), and Ercros S.A.(France). These companies are consistently focusing on expanding their production capacity to achieve a competitive advantage and thereby serve the customers more effectively.

The report also presents a competitive landscape covering different strategies and developments such as mergers & acquisitions, expansions, and agreements adopted by the leading companies in the past few years. Furthermore, different methylene chloride market participants are also profiled in the report.

Scope of the report

On the basis of application:

Paint Remover

Pharmaceuticals

Chemical Processing

Foam Manufacturing

Metal Cleaning

Others

On the basis of region:

North America

Europe

Asia-Pacific

RoW

Contents

1 INTRODUCTION

2 EXECUTIVE SUMMARY

3 PREMIUM INSIGHTS

4 MARKET OVERVIEW

5 GLOBALN METHYLENE CHLORIDE MARKET ASSESSMENT

6 MARKET ASSESSMENT, BY APPLICATION

7 MARKET ASSESSMENT, BY REGION

8 BURNING ISSUES & WINNING IMPERATIVES

9 COMPETITIVE LANDSCAPE

10 COMPANY PROFILES
