Abstracts

Based on End user the market is classified into, The hospital laboratories, clinical laboratories, and other end users . The growth of this market is majorly driven by the increasing number of specialty diagnostic tests performed in hospital laboratories, rising number of in-house clinical diagnostic procedures in hospitals, rising number of hospitals across the globe, and the growing trend of establishing in-house clinical diagnostic capabilities in hospitals.

“Microtome instruments in the product segment to witness the highest shares during the forecast period.”

Based on the product, the microtome market is segmented into Microtome Instruments: Rotary Microtomes, Cryostat Microtomes, Vibrating Microtomes, Other Microtomes, and Microtome Accessories. The microtome instruments segment is expected to dominate the microtome market. High expenditure on microtome instruments and their essential use in the histological diagnosis of various diseases are the key factors driving the growth of the automated microtome market.

“Asia Pacific is estimated to register the highest CAGR during the forecast period.”

In this report, the microtome market is segmented into four major regional segments, namely, North America, Europe, Asia Pacific, and the Rest of the World (RoW). The market in Asia Pacific is projected to register the highest growth rate during the forecast

period. The growth in this market is primarily driven by the rising disposable income of the middle-class population, infrastructural developments, and the rising penetration of diagnostic technologies in Asian countries such as India and China in addition, the rising incidence of cancer and the growing focus of global medical device companies on expanding their presence in emerging Asia Pacific countries are some of the key factors.

Breakdown of supply-side primary interviews, by company type, designation, and region:

By Company Type: Tier 1 (32%) , Tier 2 (44%), and Tier 3 (24%)

By Designation: C-level (30%), Director-level (34%), and Others (36%)

By Region: North America (40%), Europe (28%), AsiaPacific (20%), and Rest of the World(12%)

Research Coverage:

This report studies the microtome market based on product, and region. The report also analyzes factors (such as drivers, restraints, opportunities, and challenges) affecting the market growth. It evaluates the opportunities and challenges in the market for stakeholders and provides details of the competitive landscape for market leaders. The report also studies micromarkets with respect to their growth trends, prospects, and

contributions to the total microtome market. The report forecasts the revenue of the market segments with respect to five major regions.

Reasons to Buy the Report:

The report provides insights on the following pointers:

Market Penetration: Comprehensive information on microtome products offered by the top 25 players in the microtome market. The report analyzes the microtome market by product, and region.

Market Development: Comprehensive information about lucrative emerging markets. The report analyzes the markets for various securement devices across key geographic regions.

Market Diversification: Exhaustive information about untapped geographies, recent developments, and investments in the microtome market

Competitive Assessment: In-depth assessment of market shares and strategies of the leading players in the microtome market
