Abstracts

This report estimates the Middle East and Africa power rental market in terms of value in \$million. This has been broken down into component, regions, and further split into countries.

The rapidly growing demand for power rental market in the Middle East and Africa is driven by the increase in demand of power in the respective regions, widespread construction, and developmental activities. Permanent power producers' inability to meet the power demand in regular periods and especially during extremely hot weather conditions, are considered as opportunities for the Middle East and Africa power rental market.

The size of the overall market is determined by forecasting techniques and the market is growing at a CAGR of approximately 18% from 2014 to 2019.

This report also includes the profiles for leading equipment manufacturers and suppliers of temporary power equipment such as Aggreko PLC (U.K.), Altaaqa Global (UAE), APR Energy PLC (U.S.), Bryne Equipment Rental LLC (UAE), Cummins Inc. (U.S.), Hertz Equipment Rental Ltd. (U.S.), Jubaili Bros. (Lebanon), Rental Solutions and Services LLC (UAE), Sakr Power Group (Lebanon), and Speedy Hire PLC (U.S.).

Scope of the report:

This study estimates the power rental market of the Middle East and Africa, in terms of end-users and types, till 2019. It also offers a detailed qualitative and quantitative analysis of this market. This report provides a comprehensive review of major market drivers, restraints, opportunities, challenges, winning imperatives, and key issues of the market. The report also covers various important aspects which include analysis of value chain, Porter's Five Forces model, competitive landscape, market dynamics, market estimates in terms of value, and future trends in the Middle East and Africa power rental market.

Various secondary sources have been used such as encyclopedias, directories, and databases to identify and collect information that was useful for this extensive commercial study of the Middle East and Africa power rental market. The primary sources such as experts, manufacturers, and service providers from the industry have all been interviewed to obtain and verify critical information as well as assess future prospects of the Middle East and Africa power rental market.

On the basis of end-users: Utilities, Construction, Oil & Gas, and Others

On the basis of types: Diesel and Gas

On the basis of regions: Middle East and Africa
