## Abstracts

The motion control market is estimated to be worth USD 16.5 billion in 2024 and is projected to reach USD 21.6 billion by 2029 at a CAGR of 5.5% during the forecast period. The global Motion Control Market is experiencing substantial growth as businesses strive to enhance efficiency and productivity, the integration of motion control systems becomes crucial for precise control over machinery and automated processes. Additionally, a significant impetus comes from government initiatives aimed at promoting workplace safety, where motion control plays a pivotal role in ensuring controlled and secure movement of machinery. The growing recognition of the benefits associated with automation, coupled with a heightened focus on creating safer work environments, contributes to the global expansion of the Motion Control Market. This trend is indicative of the technology's key role in advancing industrial automation and aligning with safety objectives on a global scale.

“Motors to hold the largest share of motion control market in 2023.”

Motors are the core components of motion control systems; motors serve as the driving force behind the controlled motion of machinery and automated systems. The surge in demand for automation across industries, coupled with the continuous advancements in motor technology, contributes to their dominant position in the market. Motors play a crucial role in achieving accurate positioning, speed control, and overall operational efficiency in diverse sectors such as manufacturing, robotics, automotive, and aerospace. The increasing adoption of motors in conjunction with motion control

systems underscores their significance in facilitating the seamless integration of automation, thereby solidifying their position as the key contributors to the overall growth and leadership of the Motion Control Market.

“Semiconductor & Electronics industry to hold the second largest share of motion control market in 2023.”

Motion control systems play a critical role in semiconductor and electronics manufacturing processes by providing precise control over machinery and robotic systems. As the demand for electronic components and devices continues to rise, the industry is increasingly adopting motion control solutions to optimize production efficiency, enhance accuracy, and ensure the seamless operation of complex machinery. The intricate and high-precision requirements of semiconductor manufacturing make motion control systems integral to achieving the exacting standards necessary for quality production. The Semiconductor and Electronics industry's heavy share in the Motion Control Market is indicative of the technology's fundamental contribution to the evolution and efficiency of manufacturing processes within this dynamic and rapidly advancing sector.

“Europe to hold the second largest market share of motion control market in 2023.”

Europe is poised to command a significant share of the Motion Control Market, reflecting the region's robust industrial landscape and a commitment to technological innovation. The adoption of motion control systems in Europe is driven by the imperative for increased automation, precision, and efficiency across diverse industries. The region's strong presence in manufacturing, automotive, aerospace, and other key sectors underscores the pivotal role of motion control technologies. Furthermore, government initiatives promoting Industry 4.0, smart manufacturing practices, and stringent quality standards contribute to the heightened demand for advanced motion control solutions. As European industries continue to embrace cutting-edge automation technologies, the Motion Control Market in the region is set to play a crucial role in shaping and enhancing industrial processes, thereby securing a significant share in the global landscape.

The break-up of the profiles of primary participants:

By Company Type – Tier 1 – 65%, Tier 2 – 20%, and Tier 3 – 15%

By Designation – C-level Executives – 57%, Directors – 27%, and Others – 16%

By Region – North America - 24%, Europe – 24%, Asia Pacific – 46%, and Rest of the World – 6%

Major players in the motion control market are ABB (Switzerland), FANUC Corporation (Japan), Siemens (Germany), Yaskawa Electric Corporation (Japan), and Mitsubishi Electric Corporation (Japan).

### Research Coverage

The report segments the motion control market by offering, system, industry, and region. The report also comprehensively reviews drivers, restraints, opportunities, and challenges influencing market growth. The report also covers qualitative aspects in addition to the quantitative aspects of the market.

### Reasons to buy the report:

The report will help the market leaders/new entrants with information on the closest approximate revenues for the overall motion control market and related segments. This report will help stakeholders understand the competitive landscape and gain more insights to strengthen their position in the market and plan suitable go-to-market strategies. The report also helps stakeholders understand the market pulse and provides information on key market drivers, restraints, opportunities, and challenges.

### The report provides insights on the following pointers:

Analysis of key drivers (Rising need for high-end automation across industries, government initiatives to promote workplace safety, rising adoption and usage of industrial robots by manufacturers, and adoption of AI and IoT with motion control systems is driving the market), restraints (Heavy maintenance and replacement cost associated with motion control systems and susceptibility of motion control systems to cyberattacks are hindering the growth of the market), opportunities (Adoption of industry 4.0 principles for manufacturing, integration of emerging technologies such as programmable logic controllers (PLCs) and human-machine interface (HMI) with motion control systems and implementation of integrated communication system across various sectors), and challenges (Designing flexible, scalable, and low-cost motion control systems and shortage of skilled and experienced workforce) influencing the growth of the motion

control market.

**Product Development/Innovation:** Detailed insights on upcoming technologies, research and development activities, and new product launches in the motion control market.

**Market Development:** Comprehensive information about lucrative markets – the report analyses the motion control market across varied regions.

**Market Diversification:** Exhaustive information about new products, untapped geographies, recent developments, and investments in the motion control market.

**Competitive Assessment:** In-depth assessment of market shares, growth strategies, and product offerings of leading players like ABB (Switzerland), FANUC Corporation (Japan), Siemens (Germany), Yaskawa Electric Corporation (Japan), and Mitsubishi Electric Corporation (Japan).

## 5 MARKET OVERVIEW

### 5.1 INTRODUCTION

### 5.2 MARKET DYNAMICS

FIGURE 18 MOTION CONTROL MARKET: DRIVERS, RESTRAINTS, OPPORTUNITIES, AND CHALLENGES

#### 5.2.1 DRIVERS

5.2.1.1 Rising need for high-end automation across industries

5.2.1.2 Government initiatives to promote workplace safety

5.2.1.3 Growing use of industrial robots by manufacturers

5.2.1.4 Increasing integration of AI and IoT with motion control systems

FIGURE 19 MOTION CONTROL MARKET: IMPACT ANALYSIS OF DRIVERS

#### 5.2.2 RESTRAINTS

5.2.2.1 Heavy maintenance and replacement costs associated with motion control systems

5.2.2.2 Susceptibility of motion control systems to cyberattacks

FIGURE 20 MOTION CONTROL MARKET: IMPACT ANALYSIS OF RESTRAINTS

#### 5.2.3 OPPORTUNITIES

5.2.3.1 Adoption of Industry 4.0 principles for manufacturing

5.2.3.2 Integration of emerging technologies with motion control systems

5.2.3.3 Implementation of integrated communication systems across various sectors

FIGURE 21 MOTION CONTROL MARKET: IMPACT ANALYSIS OF OPPORTUNITIES

#### 5.2.4 CHALLENGES

5.2.4.1 Designing flexible, scalable, and low-cost motion control systems

5.2.4.2 Shortage of skilled and experienced workforce

FIGURE 22 MOTION CONTROL MARKET: IMPACT ANALYSIS OF CHALLENGES

### 5.3 TRENDS AND DISRUPTIONS IMPACTING CUSTOMER BUSINESS

15.3 KNOWLEDGESTORE: MARKETSandMARKETS' SUBSCRIPTION PORTAL

15.4 CUSTOMIZATION OPTIONS

15.5 RELATED REPORTS

15.6 AUTHOR DETAILS

## I would like to order

Product name: Motion Control Market by Offering (Actuators & Mechanical Systems, Drives, Motors, Motion Controllers, Sensors & Feedback Services, Software & Services), System (Open-loop, Closed-loop), End-user Industry and Region - Global Forecast to 2029

Product link: <https://marketpublishers.com/r/M4FCE99C6CEEN.html>

Price: US\$ 4,950.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/M4FCE99C6CEEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:  
Tel:  
Fax:
