ID: PF541A04492EN

Abstracts

The MicroQuadrant report on the public safety and security market covers a detailed study of the major players offering public safety and security solutions. The top 25 vendors of the global public safety and security market were analyzed on the basis of their strength of product portfolio and business strategy excellence. The vendors were shortlisted based on their solution capabilities, technology innovations, industry coverage, viability, breadth of product offering, and others.

The report will help the stakeholders such as public safety and security vendors, technology partners, system integrators, consultants, distributors, and value-added resellers to make business strategies and decisions on the deployment of customer self-service solutions.

MarketsandMarkets defines “public safety and security.” Public safety involves the coordination and administration of resources that provide for the safety and security of the community. Public safety and security is the first priority of governments across the world; they have to ensure the safety of citizens, organizations, and financial institutions from external threats. Customer self-service solutions consist of critical communication network, C2/C4ISR system, biometric security and authentication system, surveillance system, scanning and screening system, emergency and disaster management, cyber security, public address and general alarm, and backup and recovery system. These solutions allow the emergency service responders to connect and monitor the situation during various sorts of emergencies.

Vendors Evaluated

The report covers the comprehensive study of the key vendors offering solutions for public safety and security. We have evaluated the following 25 key vendors:

AGT International GmbH

Airbus DS Communications

Alcatel-Lucent Enterprise

BAE Systems

Cisco Systems, Inc.

Elbit Systems Ltd.

Ericsson AB

Esri

General Dynamics Corporation

Harris Corporation

Haystax Technology

Hexagon

The company is tentatively designated by the name "OT-Morpho" and it will be introducing its new name in September 2017.

Vendor Inclusion Criteria

We have selected 25 vendors for the evaluation based on their strength of product portfolio and business strategy excellence. The focus of our vendor evaluation was on the products they offer in the public safety and security market. A comprehensive list of all the vendors in this market was created through a product mapping strategy and MarketsandMarkets analysis. Based on their capabilities, innovations, and breadth of product offering, vendors were shortlisted.
