Abstracts

The UK metal recycling market research report analyses the market size, segmentation, trends, international trade and industry structure. The report covers iron & steel, aluminium, nickel, zinc, copper, lead and tin recycling. With five-year historical data, and detailed five-year forecasts, all data and trends are fully explained throughout the report.

An overview of a number of industry players is also provided, including a five year financial analysis as well as a set of key financial ratios. The report does not attempt to provide a comprehensive list of the leading companies, but reviews a representative sample of the different types of companies operating in the sector in order to provide benchmarking opportunities of relevance to a variety of readers.

The report is updated annually to combine the up-to-date development and trends with the latest data available on the metal recycling market in the UK.
