Abstracts

About

The report brings to your attention profound analysis of carbon black market in Finland. Historical, present and future volumes and trends are covered. Experts' opinions and estimations are provided.

Finland does not produce carbon black and depends on external supply; the main supplying countries are the Russian Federation, Germany and Egypt

tires and industrial rubber products are the main carbon black end-uses and those which considerably determine the BC market development in Finland

Finland, the same as many countries who tend to keep to the sustainable markets development, pays close attention to the special carbon black usage

Finland carbon black demand is expected to grow; tire industry is believed to recover and provide a growing demand for BC

besides, non-rubber downstream sectors will contribute to the carbon black market demand growth as well; pigments industry will show considerable increase

Finland carbon black market report key points:

demand structure, consumption trends

consumers

prices

market forecast

downstream markets

Report advantages:

Based on the report data, conclusions about present market situation in Finland will be made.

Potential demand will be figured out from the report.

Data on market players will be given.
