About

The report brings to your attention profound analysis of lime market in Italy. Historical, present and future trends are covered. Experts' opinions and estimations are provided.

the major challenge of the lime industry in Italy and other European countries is to reduce CO2 emissions; Italian lime industry is highly energy-intensive; the electricity consumption in lime manufacturing is relatively low

in Italy lime industry is presented by small and medium-sized companies

iron and steel sector is the main consumer of lime in Italy

strict legislation (related to climate change, environment, energy), EU environment policy and high energy costs can lead to shrinking of the industry in EU countries

the Italian lime market will be experiencing further decrease owing to a decline in country's iron and steel sector

in the lime application structure the following tendencies will prevail: decrease of lime usage by the metallurgical complex, increase in lime consumption for environment protection

shift to alternative fuels will be observed among Italian producers to reduce CO2 emissions
