About Creosole Market in South Africa

in South Africa, creosote production is primarily associated with the coal tar industry

the country has a significant coal mining industry, and coal tar is a byproduct of coal processing

creosote demand in South Africa is driven by the need for wood preservation in various sectors, such as construction, infrastructure development and agriculture

South Africa has a significant wood processing industry which supplies other African countries: Namibia, Zimbabwe, Botswana, Mozambique, Zambia, Kenya

the South African Wood Preservers Association (SAWPA) is responsible for industry standards and guidelines to abridge the risks associated with exposure of treatment plant workers and environments to creosote chemicals

there will continuous pressure around the world and South Africa to regulate use of creosote as a wood preservative, prompting the exploration and development of alternative wood preservatives that are considered more environmentally friendly
