About

The report brings to your attention profound analysis of graphite market in Ukraine. Historical, present and future trends are covered. Experts' opinions and estimations are provided.

Ukraine is one of the largest graphite producers in the CIS region

natural graphite produced in the country meets the domestic demand for the mineral

the principal producer of graphite in Ukraine is Zavalivsky Graphite Ltd, which produces natural graphite from Zavalivsky Deposit - one of the largest deposits of graphite in Europe

graphite recovery from metallurgical waste is getting attention to; some enterprises in Mariupol and corresponding units at different factories are engaged in recycling activities

Ukraine may face the supply decrease as graphite deposit in Zavalye, which has been operated for many years, may come to depletion, while the exploration of new deposits is a costly and long process; so the role of graphite-recycling technologies is to increase

overall, graphite market is to grow; Ukraine has an advantageous geographical position due to its proximity to countries actively engaged in the introduction of new graphite-utilizing products and technologies
