Abstracts

The research report titled “Edge Data Centers Market by Type (Metro, Mobile), Component, Deployment, Organization, Application (AI, IoT, 5G & 4G, AR/VR), End-use Sector (IT & Telecommunication, Automotive, Transportation & Logistics), and Geography—Global Forecast to 2030’, provides in-depth analysis of edge data centers market across five major geographies and emphasizes on the current market trends, market sizes, market shares, recent developments, and forecasts till 2030.

The global edge data centers market is expected to reach \$46.4 billion by 2030, growing at a CAGR of 20.9% during the forecast period of 2023–2030.

The growth of the edge data centers market is mainly attributed to the increasing need for edge data centers for industrial IoT applications, the growing demand for low-latency processing and real-time automated decision-making solutions, and the increasing utilization of edge data centers in online video streaming. The high upfront capital expenditure required to implement edge data centers restrains the growth of this market.

Additionally, the emergence of autonomous vehicles and the commercialization of 4G technology are expected to generate growth opportunities for the players in this market. Data privacy and security concerns are a major challenge for market growth. Furthermore, the rising adoption of IoT devices across industries and the growth in 5G networks are prominent trends in the edge data centers market.

Based on type, the global edge data centers market is broadly segmented into metro edge data centers and mobile edge data centers. In 2023, the metro edge data centers segment accounted for the larger share of the global edge data centers market. The large share of this segment is mainly attributed to the growing deployment of 5G networks, increasing data traffic, and the need to provide localized cloud computing resources for businesses and organizations. However, the mobile edge data centers segment is projected to grow at the highest CAGR during the forecast period.

Based on component, the global edge data centers market is segmented into hardware, software, and services. In 2023, the software accounted for the largest share of the global edge data centers market. The large share of this segment is mainly attributed to the increasing demand for workload orchestration, resource allocation, real-time data analysis, and rising demand for ultra-low latency applications. This segment is projected to record the highest CAGR during the forecast period.

Based on deployment mode, the global edge data centers market is segmented into on-premise deployments and cloud-based deployments. In 2023, the cloud-based deployments segment accounted for the larger share of the global edge data centers market. This segment is projected to record the highest CAGR during the forecast period. The segment's large share can be attributed to the increasing need to efficiently allocate resources, rapidly deploy applications and services closer to end users, and reduce latency while improving performance. This segment is projected to record the highest CAGR during the forecast period.

Based on organization size, the global edge data centers market is segmented into large enterprises and small & medium-sized enterprises. In 2023, the small & medium-sized enterprise segment accounted for the larger share of the global edge data centers market. This segment is projected to record the highest CAGR during the forecast period. The segment's large share can be attributed to the increasing demand for real-time processing and localized data management, enabling a competitive edge, optimizing operations, and accelerating the digital transformation journey.

Based on application, the global edge data centers market is segmented into artificial intelligence, Internet of things, AR/VR, telemedicine, 5G & 4G infrastructure, autonomous vehicles, video/live streaming, network functions virtualization, and other applications. In 2023, the 5G and 4G infrastructure segments accounted for the largest share of the global edge data centers market. The large market share of this segment is mainly attributed to the rising demand for ultra-low latency applications, growing

adoption of 5G networks, and growing adoption of edge data centers for high bandwidth in 5G infrastructure. However, the artificial intelligence segment is projected to record the highest CAGR during the forecast period.

Based on end-use sector, the global edge data centers market is segmented into IT & telecommunications, automotive, transportation & logistics, healthcare, energy & utilities, manufacturing, government & defense, retail, and other end-use sectors. In 2023, the IT & telecommunications segment is expected to account for the largest share of the global edge data centers market. The large share of this segment is mainly attributed to the increasing demand for low-latency and high-bandwidth communication, real-time data processing, and the need to reduce the risk of data breaches during transmission while ensuring compliance with data protection regulations in the sector. This segment is projected to record the highest CAGR during the forecast period.

Based on geography, the global edge data centers market is segmented into North America, Europe, Latin America, and the Middle East & Africa. In 2023, Asia-Pacific is expected to account for the largest share of the edge data centers market, followed by North America, Europe, Latin America, and the Middle East & Africa. The Asia-Pacific region is projected to register the highest CAGR during the forecast period. The major factors driving the market's growth are the rising adoption of advanced technologies, such as IoT and cloud computing, increasing demand for low-latency applications, the need to alleviate network congestion, improve overall network efficiency, and the increasing need for real-time analytics.

The key players operating in the global edge data centers market are Dell Technologies Inc. (U.S.), Cisco Systems, Inc. (U.S.), Eaton Corporation plc (Ireland), Fujitsu Limited (Japan), Schneider Electric SE (France), Hewlett Packard Enterprise Company (U.S.), Huawei Technologies Co., Ltd. (China), IBM Corporation (U.S.), NVIDIA Corporation (U.S.), Mitsubishi Electric Corporation (Japan), Equinix, Inc (U.S.), American Tower Corporation (U.S.), Cxtera Technologies, Inc. (U.S.), ABB (Switzerland), Nxtra Data Limited (India) (a subsidiary of Bharti Airtel Limited), Zenlayer Inc. (U.S.), Switch, Inc. (U.S.), Vertiv Group Corporation (U.S.), Nokia Corporation (Finland), EdgeConneX, Inc. (U.S.), Reichle & De-Massari AG (Switzerland), Ubiquity Management, LLC (U.S.), and Vapor IO, Inc. (U.S.).

Key questions answered in the report:

Which are the high-growth market segments in terms of type, component, deployment mode, organization size, application, and end-use sector?

What is the historical market for edge data centers across the globe?

What are the market forecasts and estimates from 2023–2030?

What are the major drivers, restraints, and opportunities in the global edge data centers market?

Who are the major players in the global edge data centers market, and what shares of the market do they hold?

Who are the major players in various countries, and what shares of the market do they hold?

How is the competitive analysis?

What are the recent developments in the global edge data centers market?

What strategies are adopted by the major players in the global edge data centers market?

What are the geographical trends and high-growth countries?

Who are the local emerging players in the global edge data centers market, and how do they compete with the other players?

Scope of the Report:

Edge Data Centers Market Assessment—by Type

Metro Edge Data Centers

Mobile Edge Data Centers

Edge Data Centers Market Assessment—by Component

Hardware

Software

Services

Training & Support

Consulting Services

Edge Data Centers Market Assessment—by Deployment Mode

On-premise Deployments

Cloud-based Deployments

Edge Data Centers Market Assessment—by Organization Size

Large Enterprises

Small & Medium-sized Enterprise

Edge Data Centers Market Assessment—by Application

Artificial Intelligence (AI)

Internet of Things (IoT)

AR/VR

Telemedicine

5G & 4G Infrastructure

Autonomous Vehicles

Video/live Streaming

Network Functions Virtualization (NFV)

Other Applications

Edge Data Centers Market Assessment—by End-use Sector

IT & Telecommunications

Automotive

Transportation & Logistics

Healthcare

Energy & Utilities

Manufacturing

Government & Defense

Retail

Other End-use Sectors

Edge data centers Market Assessment —by Geography

North America

U.S.

Canada

Asia-Pacific

Japan

China

India

South Korea

Rest of Asia-Pacific

Europe

Germany

U.K.

France

Italy

Spain

Rest of Europe

Latin America

Middle East & Africa

Contents

1. INTRODUCTION

- 1.1. Market Definition & Scope
- 1.2. Currency & Limitations

2. RESEARCH METHODOLOGY

- 2.1. Research Approach
- 2.2. Process of Data Collection & Validation
 - 2.2.1. Secondary Research
 - 2.2.2. Primary Research/Interviews with Key Opinion Leaders of the Industry
- 2.3. Market Sizing and Forecast
 - 2.3.1. Market Size Estimation Approach
 - 2.3.2. Growth Forecast
- 2.4. Assumptions For the Study

3. EXECUTIVE SUMMARY

- 3.1. Overview
- 3.2. Market Analysis, By Type
- 3.3. Market Analysis, By Component
- 3.4. Market Analysis, By Deployment Mode
- 3.5. Market Analysis, By Organization Size
- 3.6. Market Analysis, By Application
- 3.7. Market Analysis, By End-use Sector
- 3.8. Market Analysis, By Geography
- 3.9. Competitive Analysis

4. MARKET INSIGHTS

- 4.1. Overview
- 4.2. Factors Affecting Market Growth
 - 4.2.1. Impact Analysis of Market Dynamics
 - 4.2.1.1. Rising Need for Efficient Data Collection and Management
 - 4.2.1.2. Increasing Demand For Low-latency Processing and Real-time Automated Decision-making Solutions
 - 4.2.1.3. Growth in Online Video Streaming Driving the Utilization of Edge Data

Centers

4.2.1.4. High Costs of Implementing Edge Data Centers Limiting Adoption among Small & Medium-sized Enterprises

4.2.1.5. Emergence of Autonomous Vehicles Driving the Use of Edge Data Centers for Low-latency Inter-vehicle Communications

4.2.1.6. Commercialization of 4G Technology Creating Market Growth Opportunities

4.2.1.7. Data Privacy & Security Concerns to Remain Major Challenges In the Utilization of Edge Data Centers

4.2.1.8. Rising Adoption of IoT Devices Across Industries

4.2.1.9. Growth in 5G Networks

4.3. Porter's Five Forces Analysis

4.3.1. Bargaining Power of Buyers

4.3.2. Bargaining Power of Suppliers

4.3.3. Threat of Substitutes

4.3.4. Threat of New Entrants

4.3.5. Degree of Competition

4.4. Comparison Between Traditional Data Centers And Edge Data Centers

5. EDGE DATA CENTERS MARKET ASSESSMENT — BY TYPE

5.1. Overview

5.2. Metro Edge Data Centers

5.3. Mobile Edge Data Centers

6. EDGE DATA CENTERS MARKET ASSESSMENT — BY COMPONENT

6.1. Overview

6.2. Software

6.3. Hardware

6.4. Services

6.4.1. Training & Support

6.4.2. Consulting Services

7. EDGE DATA CENTERS MARKET ASSESSMENT — BY DEPLOYMENT MODE

7.1. Overview

7.2. Cloud-based Deployments

7.3. On-premise Deployments

8. EDGE DATA CENTERS MARKET ASSESSMENT — BY ORGANIZATION SIZE

- 8.1. Overview
- 8.2. Small & Medium-sized Enterprises
- 8.3. Large Enterprises

9. EDGE DATA CENTERS MARKET ASSESSMENT — BY APPLICATION

- 9.1. Overview
- 9.2. 5G and 4G Infrastructure
- 9.3. Internet of Things (IoT)
- 9.4. Artificial Intelligence (AI)
- 9.5. Network Functions Virtualization (NFV)
- 9.6. Autonomous Vehicles
- 9.7. Video/Live Streaming
- 9.8. AR/VR
- 9.9. Telemedicine
- 9.10. Other Applications

10. EDGE DATA CENTERS MARKET ASSESSMENT — BY END-USE SECTOR

- 10.1. Overview
- 10.2. IT & Telecommunications
- 10.3. Automotive
- 10.4. Healthcare
- 10.5. Transportation & Logistics
- 10.6. Government & Defense
- 10.7. Manufacturing
- 10.8. Retail
- 10.9. Energy & Utilities
- 10.10. Other End-use Sectors

11. EDGE DATA CENTERS MARKET ASSESSMENT — BY GEOGRAPHY

- 11.1. Overview
- 11.2. Asia-Pacific
 - 11.2.1. Japan
 - 11.2.2. China
 - 11.2.3. India

- 11.2.4. South Korea
- 11.2.5. Rest of Asia-Pacific
- 11.3. North America
 - 11.3.1. U.S.
 - 11.3.2. Canada
- 11.4. Europe
 - 11.4.1. U.K.
 - 11.4.2. Germany
 - 11.4.3. France
 - 11.4.4. Italy
 - 11.4.5. Spain
 - 11.4.6. Rest of Europe
- 11.5. Latin America
- 11.6. Middle East & Africa

12. COMPETITION ANALYSIS

- 12.1. Overview
- 12.2. Key Growth Strategies
- 12.3. Competitive Benchmarking
- 12.4. Competitive Dashboard
 - 12.4.1. Industry Leaders
 - 12.4.1.1. Market Ranking by the Key Players
 - 12.4.2. Market Differentiators
 - 12.4.3. Vanguard
 - 12.4.4. Emerging Companies

13. COMPANY PROFILES

- 13.1. Dell Technologies Inc.
 - 13.1.1. Company Overview
 - 13.1.2. Financial Overview
 - 13.1.3. Product Portfolio
 - 13.1.4. Strategic Developments
- 13.2. Cisco Systems, Inc.
 - 13.2.1. Company Overview
 - 13.2.2. Financial Overview
 - 13.2.3. Product Portfolio
 - 13.2.4. Strategic Developments

- 13.3. Eaton Corporation Plc
 - 13.3.1. Company Overview
 - 13.3.2. Financial Overview
 - 13.3.3. Product Portfolio
 - 13.3.4. Strategic Developments
- 13.4. Fujitsu Limited
 - 13.4.1. Company Overview
 - 13.4.2. Financial Overview
 - 13.4.3. Product Portfolio
 - 13.4.4. Strategic Developments
- 13.5. Schneider Electric SE
 - 13.5.1. Company Overview
 - 13.5.2. Financial Overview
 - 13.5.3. Product Portfolio
 - 13.5.4. Strategic Developments
- 13.6. Hewlett Packard Enterprise Company
 - 13.6.1. Company Overview
 - 13.6.2. Financial Overview
 - 13.6.3. Product Portfolio
 - 13.6.4. Strategic Developments
- 13.7. Huawei Technologies Co., Ltd.
 - 13.7.1. Company Overview
 - 13.7.2. Financial Overview
 - 13.7.3. Product Portfolio
 - 13.7.4. Strategic Developments
- 13.8. International Business Machines Corporation
 - 13.8.1. Company Overview
 - 13.8.2. Financial Overview
 - 13.8.3. Product Portfolio
 - 13.8.4. Strategic Developments
- 13.9. Nvidia Corporation
 - 13.9.1. Company Overview
 - 13.9.2. Financial Overview
 - 13.9.3. Product Portfolio
 - 13.9.4. Strategic Developments
- 13.10. Mitsubishi Electric Corporation
 - 13.10.1. Company Overview
 - 13.10.2. Financial Overview
 - 13.10.3. Product Portfolio

- 13.11. Equinix, Inc
 - 13.11.1. Company Overview
 - 13.11.2. Financial Overview
 - 13.11.3. Product Portfolio
 - 13.11.4. Strategic Developments
- 13.12. American Tower Corporation
 - 13.12.1. Company Overview
 - 13.12.2. Financial Overview
 - 13.12.3. Product Portfolio
 - 13.12.4. Strategic Developments
- 13.13. ABB Ltd
 - 13.13.1. Company Overview
 - 13.13.2. Financial Overview
 - 13.13.3. Product Portfolio
 - 13.13.4. Strategic Developments
- 13.14. Nokia Corporation
 - 13.14.1. Company Overview
 - 13.14.2. Financial Overview
 - 13.14.3. Product Portfolio
 - 13.14.4. Strategic Developments
- 13.15. Nxtra Data Limited (A Part of Bharti Airtel Limited)
 - 13.15.1. Company Overview
 - 13.15.2. Financial Overview
 - 13.15.3. Product Portfolio
- 13.16. Vertiv Holdings Co
 - 13.16.1. Company Overview
 - 13.16.2. Financial Overview
 - 13.16.3. Product Portfolio
 - 13.16.4. Strategic Developments
- 13.17. Cyxtera Technologies, Inc.
 - 13.17.1. Company Overview
 - 13.17.2. Product Portfolio
- 13.18. Switch, Inc.
 - 13.18.1. Company Overview
 - 13.18.2. Product Portfolio
- 13.19. EdgeConnex, Inc.
 - 13.19.1. Company Overview
 - 13.19.2. Product Portfolio
- 13.20. Reichle & De-Massari AG

- 13.20.1. Company Overview
- 13.20.2. Product Portfolio
- 13.21. Ubiquity Management, Llc
 - 13.21.1. Company Overview
