Smart Manufacturing Market by Technology (Robotics, AI, IIoT, Cloud, AR/VR), Application (Machine Inspection; Energy, Quality, and Warehouse Management; Planning, Surveillance, Optimization), End-use Industry, and Geography—Global Forecast to 2029

The research report titled, 'Smart Manufacturing Market by Technology (Robotics, AI, IIoT, Cloud, AR/VR), Application (Machine Inspection; Energy, Quality, and Warehouse Management; Planning, Surveillance, Optimization), End-use Industry, and Geography—Global Forecast to 2029,' provides in-depth analysis of the smart manufacturing market across five major geographies and emphasizes on the current market trends, market sizes, market shares, recent developments, and forecasts till 2029.

The smart manufacturing market is expected to reach \$446.24 billion by 2029, growing at a CAGR of 21.5% during the forecast period of 2022–2029.

The growth of the smart manufacturing market is attributed to factors such as the increasing number of government initiatives to promote industrial automation, the rising number of investments in Industry 4.0, growing demand for safety regulation compliance, and high labor costs in developed economies. However, the high capital

and operating expenses and a lack of standardization for technology platforms are some of the major factors restraining the growth of this market.

The advent of 5G connectivity in smart manufacturing and the proliferation of smart manufacturing in developing countries are expected to offer significant growth opportunities for players operating in this market. However, privacy and data protection concerns and the lack of a requisite skilled workforce to implement and operate technologies are some of the major challenges to the growth of the smart manufacturing market.

Based on technology, the smart manufacturing market is segmented into industrial IoT, cloud computing & storage, robotics & automation, industrial cybersecurity, additive manufacturing, AR/VR, digital twin, artificial intelligence, and blockchain. In 2022, the industrial IoT segment is expected to account for the largest share of the smart manufacturing market. The large market share of this segment is attributed to factors such as the consistent declining cost of industrial IoT sensors, the significant rise in the overall equipment effectiveness (OEE) through industrial IoT usage, and the increasing government initiatives to promote digital transformation. However, the blockchain segment is slated to register the highest CAGR during the forecast period.

Based on application, the smart manufacturing market is segmented into surveillance & safety, quality management, resource optimization, inventory & warehouse management, machine inspection & maintenance, production planning, and energy management. In 2022, the surveillance & safety segment is expected to account for the largest share of the smart manufacturing market. The large market share of this segment is attributed to factors such as the growing requirement for reliable safety systems to ensure personnel and asset protection, the increasing need for video monitoring in manufacturing facilities, strict government mandates for safety regulations, and the rising need for real-time analysis and tracking. However, the inventory & warehouse management segment is projected to register the highest CAGR during the forecast period.

Based on end-use industry, the smart manufacturing market is segmented into automotive, heavy machinery & tools, electronics & semiconductors, aerospace & defense, fast-moving consumer goods, medical devices, food & beverages, pharmaceuticals, paints & chemicals, oil & gas, metals & mining, energy & power, pulp & paper, other (agriculture, prefabricated construction, etc.). In 2022, the automotive segment is expected to account for the largest share of the smart manufacturing market. The large market share of this segment is attributed to factors such as the

growth of the automotive sectors post-COVID-19-pandemic, the rising number of investments by automotive manufacturers for automation and development of next-generation automobile warehouses, and the need to reduce costs & downtime in production lines. However, the pharmaceuticals segment is slated to register the highest CAGR during the forecast period.

Based on geography, the market is segmented into North America, Europe, Asia-Pacific, Latin America, and the Middle East & Africa. In 2022, Asia-Pacific is expected to account for the largest share of the smart manufacturing market. This region is also slated to register the highest growth rate during the forecast period. The high market growth in Asia-Pacific is driven by the increasing deployment of automation across manufacturing units, the rising number of government initiatives for the adoption of industrial robots, the advent of Industry 4.0, and the presence of prominent key players in the region.

The report also includes an extensive assessment of the key strategic developments adopted by the leading market participants in the industry over the past four years (2019–2022).

The key players operating in the smart manufacturing market are Amazon Web Services, Inc. (U.S.), Robert Bosch Manufacturing Solutions GmbH (Germany), Cisco Systems, Inc. (U.S.), 3D Systems Corporation (U.S.), Plex Systems, Inc. (U.S.), Cognex Corporation (U.S.), PTC Inc. (U.S.), FANUC CORPORATION (Japan), SAP SE (Germany), Mitsubishi Electric Automation, Inc. (U.S.), Emerson Electric Co. (U.S.), Siemens AG (Germany), Schneider Electric SE (France), ABB Ltd (Switzerland), Hitachi, Ltd. (Japan), and Intel Corporation (U.S.).

Key questions answered in the report:

Which are the high growth market segments in terms of technology, application, end-use industry, and country/region?

What is the historical market for smart manufacturing across the globe?

What are the market forecasts and estimates from 2022–2029?

What are the major drivers, restraints, and opportunities in the global smart manufacturing market?

Who are the major players in the global smart manufacturing market, and what shares of the market do they hold?

Who are the major players in various countries, and what shares of the market do they hold?

How is the competitive landscape?

What are the recent developments in the global smart manufacturing market?

What are the different strategies adopted by the major players in the global smart manufacturing market?

What are the geographical trends and high growth countries?

Who are the local emerging players in the global smart manufacturing market and how do they compete with the other players?

Scope of the Report:

Smart Manufacturing Market, By Technology

Industrial Internet of Things

Cloud Computing & Storage

Robotics & Automation

Robots

Automated Storage and Retrieval Systems (ASRS) And Automatic Guided Vehicles (AGVS)

Automated Assembly Lines

Wearables & Mobile Devices

Industrial Cybersecurity

Additive Manufacturing

Augmented Reality (AR)/Virtual Reality (VR)

Digital Twin

Artificial Intelligence

Blockchain

Smart Manufacturing Market, By Application

Surveillance & Safety

Quality Management

Resource Optimization

Inventory & Warehouse Management

Machine Inspection & Maintenance

Production Planning

Energy Management

Smart Manufacturing Market, By End-use Industry

Automotive

Heavy Machinery & Tools

Aerospace & Defense

Metals & Mining

Electronics & Semiconductors

Medical Devices

Food & Beverage

Pharmaceuticals

Oil & Gas

Fast-moving Consumer Goods (FMCG)

Paints & Chemicals

Energy & Power

Pulp & Paper

Other End-use Industries (Agriculture and Prefabricated Construction)

Smart Manufacturing Market, By Geography

North America

U.S

Canada

Europe

Germany

U.K.

France

Italy

Spain

Rest Of Europe

Asia-Pacific

China

Japan

India

South Korea

Rest Of Asia-Pacific

Latin America

Middle East & Africa

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Market Ecosystem
- 1.3. Currency and Limitations
 - 1.3.1. Currency
 - 1.3.2. Limitations
- 1.4. Key Stakeholders

2. RESEARCH METHODOLOGY

- 2.1. Research Approach
- 2.2. Data Collection & Validation
 - 2.2.1. Secondary Research
 - 2.2.2. Primary Research
- 2.3. Market Assessment
 - 2.3.1. Market Size Estimation
 - 2.3.2. Bottom-up Approach
 - 2.3.3. Top-down Approach
 - 2.3.4. Growth forecast
- 2.4. Assumptions for the Study

3. EXECUTIVE SUMMARY

- 3.1. Market Analysis, by Technology
- 3.2. Market Analysis, by Application
- 3.3. Market Analysis, by End-use Industry
- 3.4. Market Analysis, by Geography
- 3.5. Competitive Analysis

4. MARKET INSIGHTS

- 4.1. Introduction
- 4.2. Drivers
 - 4.2.1. Government Encouragement To Promote Industrial Automation
 - 4.2.2. Rising Investments Toward Industry 4.0
 - 4.2.3. High Productivity & Efficiency Requirements

4.3. Restraints

4.3.1. High Capital and Operating Expenses

4.3.2. Lack of Standardization

4.4. Opportunities

4.4.1. Advent of 5G Connectivity in Smart Manufacturing

4.4.2. Proliferation of Smart Manufacturing in Developing Countries

4.5. Challenges

4.5.1. Privacy and Data Protection Concerns

4.5.2. Lack of Skilled Personnel to Implement and Operate Technologies

4.6. Industry Trends

4.6.1. Technology Trend

4.6.1.1. Use of Collaborative Robots

4.6.1.2. Product, Process, and System Simulation

4.6.1.3. Adoption of Wearable Technology

4.6.2. Market Trend

4.6.2.1. Smart Manufacturing-as-a-Service

4.6.2.2. Smart Technologies Promotes Partnership Between Manufacturers and

Technology Providers

4.6.2.3. Use of Smart Technologies for Pharmaceuticals in the Wake of COVID-19

4.7. Evolution of Industry 4.0

4.7.1. Key Components of Industry 4.0

4.7.2. Case Studies

4.7.2.1. Case Study -

4.7.2.2. Case Study –

4.7.2.3. Case Study –

5. IMPACT OF COVID-19 ON THE SMART MANUFACTURING MARKET

6. SMART MANUFACTURING MARKET, BY TECHNOLOGY

6.1. Introduction

6.2. Industrial Internet of Things

6.3. Cloud Computing & Storage

6.4. Robotics & Automation

6.4.1. Robots

6.4.2. Automated Storage and Retrieval Systems (ASRS) and Automatic Guided Vehicles (AGVS)

6.4.3. Automated Assembly Lines

6.4.4. Wearables & Mobile Devices

- 6.5. Industrial Cybersecurity
- 6.6. Additive Manufacturing
- 6.7. Augmented Reality (AR)/Virtual Reality (VR)
- 6.8. Digital Twin
- 6.9. Artificial Intelligence
- 6.10. Blockchain

7. SMART MANUFACTURING MARKET, BY APPLICATION

- 7.1. Introduction
- 7.2. Surveillance & Safety
- 7.3. Quality Management
- 7.4. Resource Optimization
- 7.5. Inventory & Warehouse Management
- 7.6. Machine Inspection & Maintenance
- 7.7. Production Planning
- 7.8. Energy Management

8. SMART MANUFACTURING MARKET, BY END-USE INDUSTRY

- 8.1. Introduction
- 8.2. Automotive
- 8.3. Heavy Machinery & Tools
- 8.4. Aerospace & Defense
- 8.5. Metals & Mining
- 8.6. Electronics & Semiconductors
- 8.7. Medical Devices
- 8.8. Food & Beverage
- 8.9. Pharmaceuticals
- 8.10. Oil & Gas
- 8.11. Fast-Moving Consumer Goods (FMCG)
- 8.12. Paints & Chemicals
- 8.13. Energy & Power
- 8.14. Pulp & Paper
- 8.15. Other End-use Industries (Agriculture and Prefabricated Construction)

9. SMART MANUFACTURING MARKET, BY GEOGRAPHY

- 9.1. Introduction

9.2. North America

9.2.1. U.S

9.2.2. Canada

9.3. Europe

9.3.1. Germany

9.3.2. U.K.

9.3.3. France

9.3.4. Italy

9.3.5. Spain

9.3.6. Rest of Europe

9.4. Asia-Pacific

9.4.1. China

9.4.2. Japan

9.4.3. India

9.4.4. South Korea

9.4.5. Rest of Asia-Pacific

9.5. Latin America

9.6. Middle East & Africa

10. COMPETITIVE LANDSCAPE

10.1. Introduction

10.2. Key Growth Strategies

10.2.1. Market Differentiators

10.2.2. Synergy Analysis: Major Deals & Strategic Alliances

10.3. Competitive Dashboard

10.3.1. Industry Leaders

10.3.2. Market Differentiator

10.3.3. Vanguard

10.3.4. Emerging Companies

10.4. Vendor Market Positioning

10.5. Market Key Ranking, by Technology

11. COMPANY PROFILES (BUSINESS OVERVIEW, FINANCIAL OVERVIEW, PRODUCT PORTFOLIO, STRATEGIC DEVELOPMENTS)

11.1. Amazon Web Services, Inc. (A Subsidiary of Amazon.Com, Inc.)

11.2. Robert Bosch Manufacturing Solutions GmbH (A Subsidiary of Robert Bosch GmbH, Germany)

- 11.3. Cisco Systems, Inc.
- 11.4. 3D Systems Corporation
- 11.5. Plex Systems, Inc. (U.S.) (A Subsidiary of Rockwell Automation, Inc., U.S.)
- 11.6. Cognex Corporation (U.S.)
- 11.7. PTC Inc. (U.S.)
- 11.8. FANUC CORPORATION (Japan)
- 11.9. Sap SE (Germany)
- 11.10. Mitsubishi Electric Automation, Inc. (U.S.) (A Subsidiary of Mitsubishi Electric Corporation, Japan)
- 11.11. Emerson Electric Co. (U.S.)
- 11.12. Siemens AG (Germany)
- 11.13. Schneider Electric Se (France)
- 11.14. ABB Ltd (Switzerland)
- 11.15. Hitachi, Ltd. (Japan)
- 11.16. Intel Corporation (U.S.)

12. APPENDIX

- 12.1. Questionnaire
- 12.2. Available Customization
