

2022 Taiwan Manufacturing Industry IT Spending Survey: MIC Research

<https://marketpublishers.com/r/2E9CAB40848DEN.html>

Date: August 2022

Pages: 86

Price: US\$ 5,000.00 (Single User License)

ID: 2E9CAB40848DEN

Abstracts

Thanks to the rapid advances in information and communications technologies, companies around the world have adopted a wide variety of hardware, software, and services to support daily business operations and have planned to boost their IT (Information Technology) spending in 2022. They continue to increase IT budgets to integrate existing systems and resources more effectively, thereby reducing operating costs and improving overall productivity. Taiwan's government-backed research institute MIC (Market Intelligence & Consulting Institute) conducted surveys in late 2021 to present estimates of IT spending in five major industries in Taiwan, including manufacturing, construction, finance, merchandise (retail & wholesale), and healthcare. The findings are based on data from MIC's IT Spending Survey conducted in late 2021. Hundreds of IT companies in Taiwan were asked a series of questions about their IT spending patterns, habits, and plans. This report consolidates survey data on IT spending, enterprise software solution spending, cloud spending, smart factory spending, and information security spending in the manufacturing industry; analyzes the abovementioned spending across four sub-industries of the manufacturing industry, including livelihood, chemistry, metal & machinery, and information & electronic; provide spending forecasts for 2022 to help the stakeholders gain a better understanding of changes in the Taiwanese manufacturing industry's IT spending as a whole.

Contents

1. THE STATE OF IT SPENDING

- 1.1 IT Workforce Analysis
- 1.2 IT Spending Analysis
- 1.3 Analysis of the Total IT Spending in the Manufacturing Industry

2. SUMMARY: IT SPENDING

- 2.1 Average IT Workforce in the Manufacturing Industry to Grow by 4.1% in 2022 to 8.6 Persons
- 2.2 Average IT Spending in the Manufacturing Industry to Grow by 8.3% in 2022 to US\$357,903
- 2.3 IT Spending in the Manufacturing Industry Amounts to US\$783.5 Million in 2021

3. ENTERPRISE SOFTWARE SOLUTION SPENDING IN THE MANUFACTURING INDUSTRY

- 3.1 The Adoption of Enterprise Software Solutions
- 3.2 Changes in Enterprise Software Solution Spending in 2022

4. SUMMARY: ENTERPRISE SOFTWARE SOLUTION SPENDING

- 4.1 HRM and FMS Systems Tout 80% Adoption Rate
- 4.2 Spending on Enterprise Software Solutions in the Next 2 Years to Concentrate on MES

5. CLOUD SPENDING IN THE MANUFACTURING INDUSTRY

- 5.1 General Analysis of Samples
- 5.2 Analysis of Samples by Sub-Industry

6. THE STATE OF CLOUD ADOPTION

- 6.1 Adoption Level
 - 6.1.1 General Analysis of Samples
 - 6.1.2 Analysis of Samples by Sub-Industry
- 6.2 The Adoption of Different Clouds in the Manufacturing Industry

- 6.2.1 General Analysis of Samples
- 6.2.2 Analysis of Samples by Sub-Industry
- 6.3 The State of Public Cloud Adoption
 - 6.3.1 General Analysis of Samples
 - 6.3.2 Analysis of Samples by Sub-Industry
- 6.4 The State of Private Cloud Adoption
 - 6.4.1 General Analysis of Samples
 - 6.4.2 Analysis of Samples by Sub-Industry

7. SUMMARY: CLOUD SPENDING

- 7.1 Spending on Private Clouds Slightly Higher than Spending on Public Clouds
- 7.2 Private Clouds and Hybrid Clouds Seize a Larger Share of Pie
- 7.3 Azure/AWS/GCP and CHT Lead in Public Cloud Adoption

8. KEY FACTORS AFFECTING CLOUD ADOPTION

- 8.1 Reasons for Cloud Adoption
 - 8.1.1 General Analysis of Samples
 - 8.1.2 Analysis of Samples by Sub-industry
- 8.2 Barriers to Cloud Adoption
 - 8.2.1 General Analysis of Samples
 - 8.2.2 Analysis of Samples by Sub-industry

9. CLOUD ADOPTION INTENTION

- 9.1 General Analysis of Samples
- 9.2 Analysis of Samples by Sub-industry

10. SUMMARY: CLOUD ADOPTION INTENTION

- 10.1 Operational Management as Main Reason for Cloud Adoption
- 10.2 Information Security and Maintenance Costs as Major Concerns
- 10.3 Cloud-based Video Conferencing, Data Storage, and Information Security Driving Cloud Adoption

11. THE STATE OF SPENDING ON SMART FACTORY

- 11.1 Average Spending on Smart Factory

- 11.1.1 General Analysis of Samples
- 11.1.2 Analysis of Samples by Sub-Industry
- 11.2 Spending on In-house/Outsourced Smart Factory Development
 - 11.2.1 General Analysis of Samples
 - 11.2.2 Analysis of Samples by Sub-Industry

12. SMART FACTORY ADOPTION

- 12.1 Current Development
 - 12.1.1 General Analysis of Samples
 - 12.1.2 Analysis of Samples by Sub-Industry
- 12.2 Smart Factory Applications and Changes in Spending
 - 12.2.1 Analysis of Samples by Sub-Industry
- 12.3 Changes in Spending on Smart Factory in 2022
 - 12.3.1 General Analysis of Samples
 - 12.3.2 Analysis of Samples by Sub-Industry
- 12.4 The Adoption of Smart Factory Technology
 - 12.4.1 General Analysis of Samples
 - 12.4.2 Analysis of Samples by Sub-Industry
- 12.5 Pain Points in Adopting Smart Factory
 - 12.5.1 General Analysis of Samples
 - 12.5.2 Analysis of Samples by Sub-Industry

13. SUMMARY: SMART FACTORY ADOPTION

- 13.1 Spending on Smart Factory Expected to See Nearly 10% YoY Growth in 2022
- 13.2 Nearly 60% of Companies Opt for Outsourced Smart Factory Development in the Information & Electronic sub-industry
- 13.3 Data Analytics Holds the Largest Share in the Smart Factory Technology
- 13.4 Difficulty in Talent Recruitment and Training as the Biggest Pain Point in Smart Factory Adoption

15. SPENDING ON INFORMATION SECURITY AND IT WORKFORCE

- 15.1 General Analysis of Samples
- 15.2 Analysis of Samples by Sub-Industry

16. STAFFING STATUS OF CISO (CHIEF INFORMATION SECURITY OFFICER)

16.1 General Analysis of Samples

16.2 Analysis of Samples by Sub-Industry

17. SPENDING ON INFORMATION SECURITY

17.1 General Analysis of Samples

17.2 Analysis of Samples by Sub-Industry

18. ANALYSIS OF INFORMATION SECURITY SOLUTION ADOPTION

18.1 General Analysis of Samples

18.2 Analysis of Samples by Sub-Industry

19. SUMMARY: INFORMATION SECURITY SPENDING

19.1 Most Information Security Personnel Concurrently Served by IT Personnel with Less Than 10% Having CISO in Place

19.2 Information & Electronic Sub-industry and Livelihood Sub-industry Spend More on Information Security

19.3 The Adoption Rate of Information Security Solutions to See Significant Growth in Next Two Years

20. APPENDIX

20.1 Scope of Survey

20.2 Research Methodologies and Sample Characteristics

List Of Tables

LIST OF TABLES

Table 1 Corporate Characteristics and IT Workforce

Table 2 Estimation of Total IT Spending in the Manufacturing Industry

Table 3 Cross-analysis of Corporate Characteristics and Adoption of Enterprise Software Solutions

Table 4 Cross-analysis of Corporate Properties and IT Spending

Table 5 Cross-analysis of Corporate Properties and Smart Factory Spending

Table 6 Cross-analysis of Corporate Properties and Smart Factory Adoption

Table 7 Cross-analysis of Corporate Properties, IT Spending, and Smart Factory Adoption by Application

Table 8 Cross-analysis of Corporate Characteristics and IT Workforce

Table 9 Cross-analysis of Corporate Characteristics and Information Security Spending

Table 10 Population of Interest

Table 11 Analysis of Sub-Industries
