Abstracts

The international community has reached a consensus on achieving net-zero emissions by 2050. The European Union (EU) and the US markets are set to introduce carbon border adjustment mechanisms next year. Governments around the world are also rolling out carbon trading platforms to levy carbon taxes. These efforts will inevitably affect Taiwan's export-oriented businesses. This report surveyed leading Taiwanese electronics manufacturing services (EMS) providers to understand their strategies in goal settings, identifying carbon emission hotspots, and planning for net-zero emissions. It also analyzes their current efforts in carbon reduction to provide reference for other industry players striving to achieve net-zero emissions. The goal is to accelerate the industry's pace towards net-zero emissions to maintain competitive advantages.

Contents

1. LEADING TAIWAN COMPANIES' CARBON REDUCTION TARGETS AND EMISSION HOTSPOTS

- 1.1 Impact of International Manufacturers on Leading Taiwanese Companies' Net-Zero Timelines
- 1.2 Similarities in Emission Hotspots between Taiwanese and Overseas EMS Providers
- 1.3 Brands Have Lower Carbon Intensity than Manufacturers

2. LEADING TAIWANESE EMS PROVIDERS' CARBON REDUCTION STRATEGIES

- 2.1 Net-zero Emissions Strategies Affected by Development Disparities among EMS Providers
 - 2.1.1 Comparison of Electronics Manufacturing Strategies
 - 2.1.2 Comparison of Manufacturers' Strategies

3. LEADING TAIWANESE EMS PROVIDERS' CARBON REDUCTION EFFORTS

- 3.1 Process Improvements: Upgrade Equipment to Enhance Energy Efficiency
- 3.2 Energy Substitution: Use Green Energy and Build Renewable Energy Equipment
- 3.3 Circular Economy: Extend Product Lifecycles and Reduce Process Waste
- 3.4 Supplier Management: Lower Emissions through Procurement Controls

4. IMPACT OF THE EMS INDUSTRY'S NET-ZERO TRANSITION ON UPSTREAM AND DOWNSTREAM

5. MIC PERSPECTIVE

List Of Tables

LIST OF TABLES

Table 1: International IT Hardware Vendors' Net-zero Planning and Renewable Energy Adoption Timelines

Table 2: Carbon Intensity Changes among Leading Taiwanese Vendors in Past 4 Years

List Of Figures

LIST OF FIGURES

Figure 1: Targets and Timelines of Leading Taiwanese EMS Providers

Figure 2: Carbon Emission Status of Leading Taiwanese and Overseas EMS Providers

Figure 3: Examples of Leading EMS Providers' Process Improvements

Figure 4: Examples of Leading EMS Providers' Energy Substitution

Figure 5: Examples of Leading EMS Providers' Circular Economy

Figure 6: Impact of the EMS Industry's Net-zero Transition on Upstream and Downstream
