Abstracts

Since early 2020, the world has been hit hard by the COVID-19 outbreak with new confirmed cases continuing to rise. Health systems worldwide have been overwhelmed with patients and people are worried about the risk of infection when going to hospitals. As a result, demand for telemedicine services has surged. This report discusses international policies, application services, business opportunities in the value chain, and key issues associated with telemedicine in recent years.

Contents

1. PREFACE

2. INTERNATIONAL POLICES

2.1 North America
