Abstracts

To keep his campaign promise, Trump recently signed an executive memorandum to impose higher tariffs on Chinese goods imported into the United States in March 2018, involving large amounts and plenty of goods. A large number of Taiwanese companies have their main production bases in China, with the United States being their major export destination. Therefore, the impact of Trump's announcement would be also profound on Taiwanese companies. This report provides production value and major clients of the Taiwanese communications industry in China, especially in three major sectors: smartphone, wireless broadband CPE (Customer Premises Equipment), and fixed broadband CPE, and also includes a brief stakeholder analysis.
