Abstracts

Government of India projected in 2012 that the Indian ESDM (Electronics System Design and Manufacturing) market, consisting of electronics products, electronics components, semiconductor design, electronics manufacturing services, semiconductor fabrication, and equipment manufacturing, would reach USD 400 billion by 2020. This report provides an introduction into the development of the ESDM industry and market across different areas and segments such as mobile phone, TV, STB (Set Top Box), LED lighting, automotive electronics, and power sector/renewable energy; examines the government policies proposed for the ESDM development and promotion with an aim to identify business opportunities for electronics companies intending and willing to invest in India.

Contents

Introduction to the ESDM Industry
Electronics Market in India
Import Burdens on Electronics Products
National Policy on Electronics
Electronics Manufacturing Clusters
States Incentives for Electronics Manufacturing
