### **Abstracts**

The smart health/medical care polices in recent years focus on building information infrastructure and networks for medical services, including cloud platforms such as Health Cloud and Health Cloud 2.0 to facilitate medical data sharing, improving information networks in rural areas to facilitate the provisioning of smart health/medical care services, or the value-added applications of health/medical care big data. This report provides an overview of Taiwanese government's smart health/medical care policies for the period 2014-2020 with detailed description; provides key players of the supply chain and their nascent developments from system, service, and equipment & device perspectives; examines the industry's shortage and demand from both domestic and overseas markets.

## **Contents**

Taiwanese government's smart health initiatives

Taiwanese smart health industry supply chain

Taiwanese smart manufacturing industry shortage and demand

#### **COMPANIES MENTIONED**

3l Health Acer
