Abstracts

UWB (Ultra-wideband) was initially introduced to the market in 2000, but was soon replaced by Bluetooth and LoRa technologies. It was not until recently, when Apple adopted this technology in its iPhone 11, that UWB was back in the spotlight. The ability to achieve centimeter-level accuracy and high-precision positioning, coupled with the standardization of this technology, is expected to UWB more widely adopted in industrial, consumer, and automotive electronics applications.

Contents

1. INTRODUCTION OF UWB TECHNOLOGY

- 1.1 Ability to Achieve High-precision Positioning
- 1.2 Standardization Lowers Power Consumption and Optimizes of Code Algorithms

2.UWB MARKET DEVELOPMENT

- 2.1 Smartphones and Digital Car Keys as Major Driving Forces
- 2.2 Chip Supply Dominated by Decawave and NXP; Apple Works with USI
- 2.3 High Costs and Power Consumption Pose Biggest Challenges

3.POTENTIAL UWB APPLICATIONS

- 3.1 Industrial and Public Spaces: Growing Demand for Smart Manufacturing and Outdoor Applications
 - 3.1.1 High-precision Positioning to Make UWB Key Technology for Smart Factory
 - 3.1.2 Interference Resistance to Increase Outdoor Use of UWB
- 3.2 Consumer Products: Peer-to-peer Communication, Lost Item Tracking, and Smart Home Appliance Control
 - 3.2.1 Applications of Peer-to-peer Communication Ahead of Positioning
 - 3.2.2 Lost Item Tracking as Key Feature in Smart Home Application
- 3.3 Automotive Electronics: Leading Automakers Focus on Digital Car Keys
 - 3.3.1 Apple Leads the Market with Samsung and NXP Closely Behind
 - 3.3.2 Interoperability to be a Major Issue in Future Market Growth

4.MIC PERSPECTIVE

APPENDIX

List of Companies

List Of Tables

LIST OF TABLES

Table 1 Evolution of IEEE Standards for UWB

Table 2 Major UWB Chip Suppliers' Product Portfolios

Table 3 Comparison of Common RTLS Technologies

Table 4 UWB Applications Unveiled by Smartphone Brands

Table 5 UWB-Automotive Applications of Leading Automakers

List Of Figures

LIST OF FIGURES

Figure 1 UWB v.s. Standard Wireless Communications Technology

Figure 2 Illustration of ToF

Figure 3 Growth in Number of UWB Devices

Figure 4 Use of UWB in AGV Systems

Figure 5 UWB Systems at New York City Subway

Figure 6 Samsung's SmartTag

Figure 7 Illustration of Apple's Digital Car Key Patent

Figure 8 NIO's UWB Digital Car Key Using UWB Technology

I would like to order

Product name: Development of the Worldwide Ultra-Wideband Market and Applications (pre-order)

Product link: <https://marketpublishers.com/r/D6482EC44490EN.html>

Price: US\$ 1,600.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/D6482EC44490EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
