Abstracts

As the supply crunch of semiconductors continues in 2022, foundries and OSAT service providers are striving to expand production capacity. Although it is expected the shortage will be eased by 2023, governments around the world have acknowledged the strategic importance of semiconductor industry and have started to promote the development of local and regional supply chains. This report provides an overview of the development of the global semiconductor market and three Taiwanese three semiconductor sub-industry sectors; looks into the development of regional semiconductor supply chains and the deployment major stakeholders such as foundries like Samsung, TSMC, and UMC, chipmakers like Samsung, Intel, and Micron, and analog/auto semiconductor suppliers like Infineon, NXP, and STMicro.
