Abstracts

Private 5G network is one of the focal topics at MWC 2023, and many companies are aggressively strengthening their own solutions through collaborations, mergers & acquisitions, and other strategies to seize opportunities in the growing private 5G network market. Among the various types of private 5G network solution providers, traditional telecom equipment suppliers such as Nokia and Ericsson, as well as ICT (Information and Communications) equipment suppliers like Cisco and HPE, have all launched their own private 5G network solutions. In addition, they have developed a variety of solution contents, target markets, and sales channels to enhance their competitiveness in the market.
