Abstracts

Four years since the advent of the AI (Artificial Intelligence) voice assistant, Amazon, Google, and other big tech firms have been developing related technologies, hardware products, and applications of their own, and have pioneered. This report analyzes the development of AI voice assistants from the standpoint of the market's vanguards such as Amazon and Google, and from technical, product, and application perspectives as well. It is intended as a reference point for businesses who are interested in tapping opportunities in this arena.
