Abstracts

Shipment volume of the Taiwan 5G CPE (Customer Premises Equipment) industry reached 296,000 units in the first quarter of 2021, enjoying a whopping growth of 240% compared to the first quarter of 2020. This growth was attributed mainly to the continued commercialization of 5G FWA (Fixed Wireless Access) by telecom operators around the world and the shift in telecom orders from Huawei to Taiwanese network equipment suppliers due to U.S. ban. It is anticipated that the industry's shipment volume will reach 324,000 units in the second quarter of 2021.
