Abstracts

Thanks to the rapid advances in information and communications technologies, companies in Taiwan have adopted a wide variety of hardware, software, and services to support daily business operations, planning to boost their IT (Information Technology) spending in 2022. They continue to increase IT budgets to integrate existing systems and resources more effectively, thereby reducing operating costs and improving overall productivity. Taiwan's MIC (Market Intelligence & Consulting Institute) conducted surveys in late 2021 with an aim to present estimates of IT spending in five major industries in Taiwan, including manufacturing, construction, finance, retail, and healthcare. The findings are based on data from MIC's IT Spending Survey conducted in late 2021. Hundreds of IT companies in Taiwan were asked a series of questions about their IT spending patterns, habits, and plans. This report consolidates survey data on cloud spending and analyzes the current state of such spending across four subindustries of the manufacturing industry, including livelihood, chemistry, metal & machinery, and information & electronic; provides spending forecasts for 2022 to help the stakeholders gain a better understanding of changes in cloud spending and adoption over the years.

Contents

1. CLOUD SPENDING IN THE MANUFACTURING INDUSTRY

- 1.1 General Analysis of Samples
- 1.2 Analysis of Samples by Sub-Industry

2. STATE OF CLOUD ADOPTION

- 2.1 Adoption Level
 - 2.1.1 General Analysis of Samples
 - 2.1.2 Analysis of Samples by Sub-Industry
- 2.2 The Adoption of Different Clouds in the Manufacturing Industry
 - 2.2.1 General Analysis of Samples
 - 2.2.2 Analysis of Samples by Sub-Industry
- 2.3 State of Public Cloud Adoption
 - 2.3.1 General Analysis of Samples
 - 2.3.2 Analysis of Samples by Sub-Industry
- 2.4 State of Private Cloud Adoption
 - 2.4.1 General Analysis of Samples
 - 2.4.2 Analysis of Samples by Sub-Industry

3. MIC PERSPECTIVE

- 3.1 Spending on Private Cloud Slightly Higher than Spending on Public Cloud
- 3.2 Private Cloud and Hybrid Cloud Represent a Larger Share of the Cloud Pie
- 3.3 Azure/AWS/GCP and Hicloud Lead in Public Cloud Adoption

4. APPENDIX

- 4.1 Scope of Survey
- 4.2 Research Methodologies and Sample Characteristics
- 4.3 List of Companies

List Of Tables

LIST OF TABLES

Table 1 Cross-analysis of Corporate Properties and IT Spending

Table 2 Population of Interest

Table 3 Analysis of Sub-Industries

List Of Figures

LIST OF FIGURES

Figure 1 Total Cloud Spending in the Manufacturing Industr	Figure 1	Total Cloud	Spending i	in the	Manufacturing	Industry
