Abstracts

The report finds that the Taiwanese LTE CPE industry's shipment volume topped about 2.56 million in the first half of 2017, owing mainly to the increased shipment share of outdoor and indoor CPE that reached about 70%. Meanwhile, the sliding ASP (Average Selling Price) led to shipment value decline in the first half of 2017. Despite so, it is anticipated the industry will still manage to grow 2% in 2017 compared to 2016, with a total shipment volume of 5.6 million units.
