Abstracts

The report finds that owing mainly to the commercial replacement demand from the United States, the Taiwanese notebook PC industry had a shipment volume of 32.3 million units in the second quarter of 2017, enjoying both sequential and year-on-year growth. The industry's shipment volume is expected to have grown sequentially in the third quarter of 2017, to approximately 34.4 million units. The growth is likely to continue well into the fourth quarter of 2017 albeit at a slower rate.
