Abstracts

Feed antioxidants are used in animal feed to protect the nutrients in the feed from oxidative rancidity. They preserve the quality of the feed hereafter making it safe for consumption. The increasing number of animal welfare organisations and campaigns has been a key driver for this market. Feed antioxidants prevent lipid peroxidation of oils and fats. Oxidative rancidity modifies the organoleptic qualities therefore, it reduces the nutritional value of fats. Sometimes oxidation of nutrients creates toxic compounds. Feed antioxidants increase the useful life of feed.

The global feed antioxidants market has been expanding owing to the growth of the live-stock market and the meat industry. Moreover, due to the application of new technology to the feed production industry, the demand for the feed antioxidants market has also been increasing. Additionally, since the antioxidants improve shelf life, the feed wastage is considerably reduced which impacts this market positively.

Moreover, the increasing industrialisation of the meat industry has made feed antioxidants a necessity because the cost incurred due to feed purchase is very high. Feed antioxidants also increase the disease resistance of animals, since they protect the nutrients in the feed hereby helping them maintain a healthy life cycle.

The global feed antioxidants market is projected to reach a value of USD 0.6 Billion by the year 2028 from a value of USD 0.3 in the year 2020. The market is expected to grow with a CAGR of 7% during the forecast period 2020-2028. The market for feed antioxidants is segmented by Form, and Region. APAC is expected to dominate the global market for feed antioxidants, with market value of around 33.33% of the global revenue. This is due to the increasing disposable income and expanding demand for meat-based products in Asian countries.

By type, the synthetic antioxidants segment is anticipated to have the largest market size in the feed oxidants market since it has higher durability and the cost incurred is lesser. Based on form, the dry segment is predicted to lead the market owing to the ease of handling. On the basis of animals, the poultry segment is probable to expected to lead this segment.

Synthetic Antioxidants like BHT are increasingly used in the poultry industry although recent scientific studies prove that BHT had an anti-viral effect on the Newcastle virus. Researchers are trying to probe further into this subject matter by expanding the scope of their research to different types of feed antioxidants and viruses.

One of the expanding markets that have been contributing to the feed antioxidants segment is the fed food sector. Feed antioxidants help protect the body of cats/dogs from the damage caused by free radicals. Free radicals can cause damage to can damage cell membranes, enzymes, and even DNA, it is also considered as a reason for premature aging amongst cats and dogs. Their immune systems are very vulnerable and susceptible to free radicals, therefore antioxidants like vitamins C and E are very commonly used in animal food since they help resist free radicals and keep the pet healthy.

Scope:

The study period of this report, 'Global Feed Antioxidants-Market and Technology Forecast to 2028' ranges from 2018-2028, and the forecast period ranges from 2020-2028. The market is segmented by Form and Region.

This report is aimed at:

Insights based on the drivers, restraints, and challenges and their influence on the continually changing global market have been discussed in this report.

The technological advancements of this field along with their impact on the market has been covered.

A detailed study concerning the key players of the market and the strategies employed by them as well as a regional analysis on the competitors have been provided.

Porter's Five Forces and PESTLE Analysis has been made use of to provide analytics concerning the global feed antioxidants market.

The opportunities provided by the feed antioxidants sector and analysis of the rapidly growing markets has been provided.

The report has accounted for all the events within the forecast period that could impact the shift in global market dynamics.

Segmentation covered in this Report:

The market is segmented based on Form, and Region.

Based on the Region:

North America

Europe

Asia Pacific

Middle East

Rest of the World

Based on Animal:

Poultry

Cattle

Swine

Aquaculture

Pets

Based on Form:

Dry

Liquid

Based on the Synthetic Type:

BHT

BHA

Ethoxyquin

Propyl Gallate

Others

Country Analysis:

United States

Canada

France

Germany

Spain

Portugal

Denmark

Netherlands

Sweden

Finland

United Kingdom

Switzerland

Italy

Japan

Israel

Turkey

Australia

China

Malaysia

Brazil

Reasons to buy this report:

The new players of this market can use this report to understand the impacts of drivers, restraints, and challenges on the changing market trends.

Industry Specialists could make use of this report to understand the impact of all the political and economic events on this market.

Technology Innovators can use this report to understand the opportunities provided by this market with unmet technological demands and research these grey areas.

Sales teams can use this report to understand the changing preferences of people and accordingly make efficient sales.

Who is this report aimed for:

Feed Antioxidants Manufacturers: Can use this report to analyze the global demand for feed anti-oxidants based on the meat industry and the feed market.

Financial Institutions: Can use this report to analyze the growth of this market and make investments in promising areas.

Governments, Associations, and Industrial Bodies: Can use this report to understand the scope for expansion and the opportunities provided by this market.

Sales Teams: Can use this report to strategize sales on the long term and short term basis.

Contents

1 INTRODUCTION

- 1.1 Objective
- 1.2 Market definition
- 1.3 Methodology
- 1.4 Events based Forecast Scenario
- 1.5 Who will benefit from this report
 - 1.5.1 Business Leaders & Business Developers
- 1.6 Language
- 1.7 Opportunity Alerts

2 EXECUTIVE SUMMARY

- 2.1 Global Feed Antioxidants Market Trends and Insights
- 2.2 Major Findings
- 2.3 Major Conclusions
- 2.4 Important Tables and Graphs

3 CURRENT MARKET OVERVIEW OF THE GLOBAL FEED ANTIOXIDANTS MARKET

4 CURRENT TECHNOLOGY TRENDS IN THE GLOBAL FEED ANTIOXIDANTS

5 MARKET SEGMENTATION

- 5.1 By Region
- 5.2 By Form

6 MARKET ANALYSIS

- 6.1 Introduction
- 6.2 Porter's 5 Forces Analysis
 - 6.2.1 Competitive Rivalry
 - 6.2.2 Supplier Power
 - 6.2.3 Buyer Power
 - 6.2.4 Threat of Substitution
 - 6.2.5 Threat of New Entry

6.3 PEST

6.4 Market Dynamics

6.4.1 Drivers

6.4.2 Restraints

6.4.3 Challenges

6.5 Country Analysis

6.5.1 United States

6.5.2 Canada

6.5.3 France

6.5.4 Germany

6.5.5 Spain

6.5.6 Portugal

6.5.7 Denmark

6.5.8 Netherlands

6.5.9 Sweden

6.5.10 Finland

6.5.11 United Kingdom

6.5.12 Switzerland

6.5.13 Italy

6.5.14 Japan

6.5.15 Israel

6.5.16 Turkey

6.5.17 Australia

6.5.18 China

6.5.19 Malaysia

6.5.20 Brazil

7 FORECAST GLOBAL FEED ANTIOXIDANTS MARKET BY REGION TO 2028

7.1 Introduction

7.2 Global Feed Antioxidants Market by Region overview

7.3 Global Feed Antioxidants Market By Region (By Animal)

7.3.1 Poultry

7.3.2 Cattle

7.3.3 Swine

7.3.4 Aquaculture

7.3.5 Pets

8 FORECAST GLOBAL FEED ANTIOXIDANTS BY FORM TO 2028

8.1 Introduction

8.2 Global Feed Antioxidants Market by Form overview

8.3 Global Feed Antioxidants Market By Form (By Synthetic Type)

8.3.1 BHT

8.3.2 BHA

8.3.3 Ethoxyquin

8.3.4 Propyl Gallate

8.3.5 Others

9 OPPORTUNITY ANALYSIS GLOBAL FEED ANTIOXIDANTS MARKET

10 EVENTS BASED FORECAST FOR THE GLOBAL FEED ANTIOXIDANTS MARKET TO 2028

10.1 Introduction

10.2 Events forecast factors

10.3 Global Market

10.4 Events Based Forecast- Scenario

10.5 Events Based Forecast- Scenario

11 CORONA IMPACT

12 CONCLUSIONS AND RECOMMENDATIONS

13 COMPANY PROFILES

14 ABOUT MARKET INFO GROUP

14.1 General

14.2 Contact us

14.3 Disclaimer

14.4 License information

14.4.1 1-User PDF License

14.4.2 5-User PDF License

14.4.3 Site PDF License

14.4.4 Enterprise PDF License

15 APPENDICES

15.1 Companies Mentioned

15.2 Abbreviations
