Abstracts

Overview:

5G Market Intelligence is an annual subscription that provides research, analysis, and advisory services that addresses a wide range of topics including technologies, solutions, services, applications and more. Analysis includes market prospects, competition, products, and more. It includes a monthly newsletter, 5G-specific reports, custom research, advisory services, and 5G related research reports such as satellites and asset tracking. Current reports include:

5G Business Services Market by Enterprise, Industrial, and Government Segment Applications, Services, and Solutions 2022 – 2027

5G Device Market by Form Factor, Use Case, Device Type (Mobility and CPE), Sector (Consumer, Enterprise, Industrial, Government) and Frequency Bands 2022 – 2027

5G in IoT by Connectivity, Infrastructure, Sensors, Devices (Type, Sector, Verticals), and Things 2022 – 2027

5G MVNO Market by Technology, Infrastructure, Applications, Services and Solutions 2022 – 2027

5G Network Densification Market by Location (Indoor & Outdoor), Spectrum Band, Small Cells and Carrier WiFi 2022 – 2027

5G Security Market by Technology, Solution, Category, Software, Services, and Industry Vertical Support 2022 – 2027

5G Smart Antenna Market by Type (Switched Multi-beam Antenna and Adaptive Array Antenna), Technology (SIMO, MISO, and MIMO), Frequency Range (FR1 and FR2), Use Cases, and Applications 2022 – 2027

5G Mobile VAS Applications by Consumer, Enterprise, Industrial and Government Segments 2022 – 2027

5G Video Market by Service Provider Type (Carrier and OTT) and Application Type in Consumer, Enterprise, and Industrial Verticals 2022 – 2027

Multi Access Edge Computing Market by Infrastructure, Deployment Type, Use Case, Application, Industry Vertical, and Region 2022 – 2027

Sixth Generation Wireless by 6G Tech Development (Investment, R&D and Testing) and 6G Market Commercialization (Infrastructure, Deployment, Apps and Services), Use Cases and Industry Verticals 2022 – 2030

5G Network Slicing by Infrastructure, Spectrum Band, Segment, Industry Vertical, Application and Services 2022 – 2027

Private Wireless Networks Market by LTE, 5G, and Edge Computing in Enterprise, Industrial, and Government Solutions 2022 – 2027

Public Safety LTE and 5G Market by Technology, Solutions, Applications and Services 2022 – 2027

Telecom API Market by Technologies, Application and Service Types, Stakeholders, User Types, Deployment, and Platform as a Service Types 2022 – 2027

Asset Tracking Market by Infrastructure (Platform, Software, and Services), Connection Type, Mobility (Fixed, Portable, Mobile), Location Method (GPS, Beacons, RFID, Others), Solution Type, Supporting Technology and Industry Verticals 2022 – 2027

Autonomous Vehicle Market by Autonomy Level, Powertrain Type, Components, and Supporting Technologies including 5G, AI, and Edge Computing 2022 – 2027

Commercial UAV Market by Drone Type, Use Cases and Applications,
Supporting Infrastructure and Services 2022 – 2027

Satellite Services Market by Type (LEO, MEO, and GEO), Communications
(Voice and Data), Solutions, Apps, Segments (Consumer, Enterprise, Industrial,
and Government), and Industry Verticals 2022 – 2027

Smart Cities Market by Strategy, Technology, and Outlook for Solutions,
Applications and Services 2022 – 2027

Teleoperation and Telerobotics Market by Technologies, Solutions, and
Applications for Enterprise and Industrial Automation 2022 – 2027

Subscription to 5G Market Intelligence is also an annual subscription service that provides research, analysis, and advisory services that address a wide range of topics within 5G including technologies, infrastructure, capabilities, security, evolution and more.

Subscription to 5G Market Intelligence provides the client with access to analysis in the form of periodic reports, news flashes, custom analysis and over the phone consultation in a variety of areas including communications, content, commerce, and applications. The service includes all existing plus the following:

Special Alerts: Timely market and technology advisories with analysis about events as they happen. These advisories may occur several times a week and sometimes skip days if there are no events.

Weekly Briefings: Weekly briefings about trends, opportunities, threats, competition, developments, etc.

Monthly Updates: Once a month comprehensive update focused on critical topics within the handset and applications industry

Quarterly Webinars: Once a quarter deep dive into a particular topic of interest to the subscriber

Research Methodology

Mind Commerce employs a combination of primary market research and secondary research analysis. In its primary market research, Mind Commerce leverages an extensive contact list of industry professionals (network operators, software and infrastructure companies, portal companies, media companies, brands and advertising agencies, etc.) for interviews, panel discussions, gathering data, fact checking and independent analysis.

Mind Commerce also uses various secondary sources including assumptions and market projections from third parties. Mind Commerce applies its proprietary analysis method to derive its own independent assessment. In addition, Mind Commerce employs Subject Matter Experts (SME) in various fields to evaluate market trends and developments, create and maintain ongoing vision of technology and market direction, and to test independent analysis on an ongoing basis based on industry developments.

Sources of Data and Analysis

Mind Commerce gathers qualitative and quantitative data via personal interviews, focus groups, questionnaires, and polls. Mind Commerce constantly monitors a variety of data sources, testing and retesting its independent analysis against opinions and data from other sources. Mind Commerce also uses personal interviews to vet data with industry experts and professionals actually deploying and operating networks, applications, services, etc.

About Mind Commerce

The Mind Commerce mission is to provide customized research, consulting, training, and writing services for the telecommunications and IT industry within our areas of expertise. Mind Commerce clients include manufacturers, developers, service providers, industry organizations, and government. Mind Commerce partners include various leading firms in the telecommunications industry. Mind Commerce differentiates itself from its competition by meeting the unique needs of its clients through customized product development and service delivery.
