OVERVIEW:

These research findings provide data and forecasts for IoT infrastructure including hardware, software, platforms, databases, APIs, and more. The forecasts will provide the user with valuable estimations for adoption, usage, revenue, and more. Each forecast includes a working Excel document, allowing the user to easily input into their own models and projections. All purchases of Mind Commerce reports includes time with an expert analyst who will help you link key findings in the report to the business issues you're addressing. This needs to be used within three months of purchasing the report.
