Abstracts

Accounts Payable / Accounts Receivable (AP/AR) automation software is designed to speed the processing of invoices and reduce or eliminate the errors inherent in a paper AP/AR process. For this AP/AR software will include invoice processing and receipt capture features, as well as tracking and compliance features. They will most often integrate with more comprehensive Accounting and ERP platforms. Sometimes they are billed strictly as an add-on to these broader platforms. Some strictly AP/AR software may be adequate for the needs of very small businesses, though generally they are meant to be integrated into a more comprehensive accounting solution.
