## Abstracts

Aircraft leasing is a technique where the airline companies procure the aircraft on lease from leasing airlines companies and other aircraft operators. Over the last few years, several airlines companies have switched to aircraft leasing for their operations to reduce the financial burden and to increase the number of aircrafts. Owing to this, the market for aircraft lessor have grown significantly. Aircraft leasing is mainly of two type: wet leasing and dry leasing. However, wet leasing aircraft are procure for shorter period of time, whereas, dry leasing is used for longer leasing period. The major buyers of the aircraft leasing are the big airlines, financial investors and others. However, these buyers mainly go for the OEMs or from the leasing companies.
