## Abstracts

An interactive kiosk is an automatic terminal installed at an airport that delivers information for entertainment, communication, and passenger ticket information. It comprises a touch-enabled monitor for user-friendly application. With the assistance of interactive kiosk at airports, service providers are able to provide service to a large number of passengers with less number of airport staff involved in the process. The interactive self-service kiosks simplify a wide range of operations, such as display directions on map, ticket and passenger information, and several others.
