Abstracts

Washing performance roughly matches that of a comparable stand-alone washing machine, especially when compared to a front-loading washing machine. Laundry pods will work perfectly on this type of machine, as will most types of leading brand liquid detergents, powder detergents and green laundry detergents. You'll save on space over two separate appliances. A combo washer-dryer, naturally, takes half the space of separate appliances. You could use either the wash or dryer function separately; they don't have to be combined. If you prefer to hand wash some delicate garments or baby clothes and then have them dry in your machine, it can be done. Same thing if you prefer to wash your clothes on any cycle in the washer and then air dry them. Purchase and running costs are roughly equivalent to owning a separate front load washer and condenser dryer. The quantity of energy consumed when using on or the other is going to be similar.
