Abstracts

The art fund actually invests in artworks in specific blocks in a fund-raising manner. Generally, it has a lock-up period of three years or more. It uses the different characteristics and marketability of each piece of art to make long-term and short-term allocations in order to reduce sales. Risk and increase return on investment. It has a complete structure. Except for the fund itself, which is traded and traded by a team of professional art managers, the purchased art is managed by a trustee unit, and the funds raised to the sale of art are also under the supervision and accounting unit of the legal unit.
