

# Artificial Photosynthesis Market - Global Outlook and Forecast 2022-2028

<https://marketpublishers.com/r/ABBD490595FAEN.html>

Date: March 2022

Pages: 69

Price: US\$ 3,250.00 (Single User License)

ID: ABBD490595FAEN

## Abstracts

Artificial photosynthesis uses some artificial methods such as solar cells to replace the function of chlorophyll to absorb sunlight and turn it into energy which can be used by human beings. But unfortunately, this technology just stays in the laboratory and no to be applied to the industry.

This report contains market size and forecasts of Artificial Photosynthesis in Global, including the following market information:

Global Artificial Photosynthesis Market Size 2023-2028, (\$ millions)

The global Artificial Photosynthesis market is projected to reach US\$ million by 2028.

MARKET MONITOR GLOBAL, INC (MMG) has surveyed the Artificial Photosynthesis companies, and industry experts on this industry, involving the revenue, demand, product type, recent developments and plans, industry trends, drivers, challenges, obstacles, and potential risks.

Total Market by Segment:

Global Artificial Photosynthesis Market, by Type, 2023-2028 (\$ millions)

Global Artificial Photosynthesis Market Segment Percentages, by Type

Suspended Nanopowder Photocatalysts

Photovoltaic Cell-driven Electrolysers

## Photoelectrochemical Cells (PECs)

Global Artificial Photosynthesis Market, by Application, 2023-2028 (\$ millions)

Global Artificial Photosynthesis Market Segment Percentages, by Application

Industrial

Machinery & Equipment

Automotive

Aerospace & Defense

Others

Global Artificial Photosynthesis Market, By Region and Country, 2023-2028 (\$ Millions)

Global Artificial Photosynthesis Market Segment Percentages, By Region and Country

United States

Europe

Asia

China

Rest of World

## Competitor Analysis

The report also provides analysis of leading market participants including:

Further, the report presents profiles of competitors in the market, key players include:

Department of Genetics, Cell Biology, and Development, University of Minnesota

Department of Chemistry, University of Illinois Urbana-Champaign

Department of Chemistry, University of Cambridge

Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Microbiology

University of Bordeaux, CNRS, Centre de Recherche Paul Pascal

Institut Universitaire de France

Research Center for Solar Energy Chemistry, and Division of Chemical Engineering, Graduate School of Engineering Science, Osaka University

Energy Materials Laboratory, Korea Institute of Energy Research

Joint Center for Artificial Photosynthesis, Lawrence Berkeley National Laboratory

Technical Chemistry, Department of Chemistry, Chemical-Biological Centre, Umeå University

Catalysis Division, National Chemical Laboratory

## Contents

### **1 INTRODUCTION TO RESEARCH & ANALYSIS REPORTS**

- 1.1 Artificial Photosynthesis Market Definition
- 1.2 Market Segments
  - 1.2.1 Market by Type
  - 1.2.2 Market by Application
- 1.3 Global Artificial Photosynthesis Market Overview
- 1.4 Features & Benefits of This Report
- 1.5 Methodology & Sources of Information
  - 1.5.1 Research Methodology
  - 1.5.2 Research Process
  - 1.5.3 Base Year
  - 1.5.4 Report Assumptions & Caveats

### **2 GLOBAL ARTIFICIAL PHOTOSYNTHESIS OVERALL MARKET SIZE**

- 2.1 Global Artificial Photosynthesis Market Size: 2022 VS 2028
- 2.2 Global Artificial Photosynthesis Market Size, Prospects & Forecasts: 2022-2028
- 2.3 Key Market Trends, Opportunity, Drivers and Restraints
  - 2.3.1 Market Opportunities & Trends
  - 2.3.2 Market Drivers
  - 2.3.3 Market Restraints

### **3 COMPANY LANDSCAPE**

- 3.1 Key Artificial Photosynthesis Players in Global Market
- 3.2 Global Companies Artificial Photosynthesis Product & Technology

### **4 PLAYERS PROFILES**

- 4.1 Department of Genetics, Cell Biology, and Development, University of Minnesota
  - 4.1.1 Department of Genetics, Cell Biology, and Development, University of Minnesota Corporate Summary
  - 4.1.2 Department of Genetics, Cell Biology, and Development, University of Minnesota Business Overview
  - 4.1.3 Department of Genetics, Cell Biology, and Development, University of Minnesota Artificial Photosynthesis Product Offerings & Technology

4.1.4 Department of Genetics, Cell Biology, and Development, University of Minnesota Artificial Photosynthesis R&D, and Plans

4.2 Department of Chemistry, University of Illinois Urbana-Champaign

4.2.1 Department of Chemistry, University of Illinois Urbana-Champaign Corporate Summary

4.2.2 Department of Chemistry, University of Illinois Urbana-Champaign Business Overview

4.2.3 Department of Chemistry, University of Illinois Urbana-Champaign Artificial Photosynthesis Product Offerings & Technology

4.2.4 Department of Chemistry, University of Illinois Urbana-Champaign Artificial Photosynthesis R&D, and Plans

4.3 Department of Chemistry, University of Cambridge

4.3.1 Department of Chemistry, University of Cambridge Corporate Summary

4.3.2 Department of Chemistry, University of Cambridge Business Overview

4.3.3 Department of Chemistry, University of Cambridge Artificial Photosynthesis Product Offerings & Technology

4.3.4 Department of Chemistry, University of Cambridge Artificial Photosynthesis R&D, and Plans

4.4 Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Microbiology

4.4.1 Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Microbiology Corporate Summary

4.4.2 Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Microbiology Business Overview

4.4.3 Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Microbiology Artificial Photosynthesis Product Offerings & Technology

4.4.4 Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Department of Biochemistry and Synthetic Metabolism, Max Planck Institute for Terrestrial Microbiology Artificial Photosynthesis R&D, and Plans

4.5 University of Bordeaux, CNRS, Centre de Recherche Paul Pascal

4.5.1 University of Bordeaux, CNRS, Centre de Recherche Paul Pascal Corporate Summary

4.5.2 University of Bordeaux, CNRS, Centre de Recherche Paul Pascal Business Overview

4.5.3 University of Bordeaux, CNRS, Centre de Recherche Paul Pascal Artificial

## Photosynthesis Product Offerings & Technology

4.5.4 University of Bordeaux, CNRS, Centre de Recherche Paul Pascal Artificial Photosynthesis R&D, and Plans

## 4.6 Institut Universitaire de France

4.6.1 Institut Universitaire de France Corporate Summary

4.6.2 Institut Universitaire de France Business Overview

4.6.3 Institut Universitaire de France Artificial Photosynthesis Product Offerings & Technology

4.6.4 Institut Universitaire de France Artificial Photosynthesis R&D, and Plans

4.7 Research Center for Solar Energy Chemistry, and Division of Chemical Engineering, Graduate School of Engineering Science, Osaka University

4.7.1 Research Center for Solar Energy Chemistry, and Division of Chemical Engineering, Graduate School of Engineering Science, Osaka University Corporate Summary

4.7.2 Research Center for Solar Energy Chemistry, and Division of Chemical Engineering, Graduate School of Engineering Science, Osaka University Business Overview

4.7.3 Research Center for Solar Energy Chemistry, and Division of Chemical Engineering, Graduate School of Engineering Science, Osaka University Artificial Photosynthesis Product Offerings & Technology

4.7.4 Research Center for Solar Energy Chemistry, and Division of Chemical Engineering, Graduate School of Engineering Science, Osaka University Artificial Photosynthesis R&D, and Plans

4.8 Energy Materials Laboratory, Korea Institute of Energy Research

4.8.1 Energy Materials Laboratory, Korea Institute of Energy Research Corporate Summary

4.8.2 Energy Materials Laboratory, Korea Institute of Energy Research Business Overview

4.8.3 Energy Materials Laboratory, Korea Institute of Energy Research Artificial Photosynthesis Product Offerings & Technology

4.8.4 Energy Materials Laboratory, Korea Institute of Energy Research Artificial Photosynthesis R&D, and Plans

4.9 Joint Center for Artificial Photosynthesis, Lawrence Berkeley National Laboratory

4.9.1 Joint Center for Artificial Photosynthesis, Lawrence Berkeley National Laboratory Corporate Summary

4.9.2 Joint Center for Artificial Photosynthesis, Lawrence Berkeley National Laboratory Business Overview

4.9.3 Joint Center for Artificial Photosynthesis, Lawrence Berkeley National Laboratory Artificial Photosynthesis Product Offerings & Technology

4.9.4 Joint Center for Artificial Photosynthesis, Lawrence Berkeley National Laboratory Artificial Photosynthesis R&D, and Plans

4.10 Technical Chemistry, Department of Chemistry, Chemical-Biological Centre, Umea University

4.10.1 Technical Chemistry, Department of Chemistry, Chemical-Biological Centre, Umea University Corporate Summary

4.10.2 Technical Chemistry, Department of Chemistry, Chemical-Biological Centre, Umea University Business Overview

4.10.3 Technical Chemistry, Department of Chemistry, Chemical-Biological Centre, Umea University Artificial Photosynthesis Product Offerings & Technology

4.10.4 Technical Chemistry, Department of Chemistry, Chemical-Biological Centre, Umea University Artificial Photosynthesis R&D, and Plans

4.11 Catalysis Division, National Chemical Laboratory

4.11.1 Catalysis Division, National Chemical Laboratory Corporate Summary

4.11.2 Catalysis Division, National Chemical Laboratory Business Overview

4.11.3 Catalysis Division, National Chemical Laboratory Artificial Photosynthesis Product Offerings & Technology

4.11.4 Catalysis Division, National Chemical Laboratory Artificial Photosynthesis R&D, and Plans

## **5 SIGHTS BY REGION**

5.1 By Region - Global Artificial Photosynthesis Market Size, 2023 & 2028

5.2 By Region - Global Artificial Photosynthesis Revenue, (2023-2028)

5.3 United States

5.3.1 Key Players of Artificial Photosynthesis in United States

5.3.2 United States Artificial Photosynthesis Development Current Situation and Forecast

5.4 Europe

5.4.1 Key Players of Artificial Photosynthesis in Europe

5.4.2 Europe Artificial Photosynthesis Development Current Situation and Forecast

5.5 China

5.5.1 Key Players of Artificial Photosynthesis in China

5.5.2 China Artificial Photosynthesis Development Current Situation and Forecast

5.6 Rest of World

## **6 SIGHTS BY PRODUCT**

6.1 by Type - Global Artificial Photosynthesis Market Size Markets, 2023 & 2028

- 6.2 Suspended Nanopowder Photocatalysts
- 6.3 Photovoltaic Cell-driven Electrolysers
- 6.4 Photoelectrochemical Cells (PECs)

## **7 SIGHTS BY APPLICATION**

- 7.1 By Application - Global Artificial Photosynthesis Market Size, 2023 & 2028
- 7.2 Industrial
- 7.3 Machinery & Equipment
- 7.4 Automotive
- 7.5 Aerospace & Defense
- 7.6 Others

## **8 CONCLUSION**

## **9 APPENDIX**

- 9.1 Note
- 9.2 Examples of Clients
- 9.3 Disclaimer

## I would like to order

Product name: Artificial Photosynthesis Market - Global Outlook and Forecast 2022-2028

Product link: <https://marketpublishers.com/r/ABBD490595FAEN.html>

Price: US\$ 3,250.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/ABBD490595FAEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:
